START: Citroën C5 Aircross models come with the following equipment as standard:

Safety and Security

- Active Safety Brake (Video: VAEB2): Emergency brake function (operational from 5KM/H to 85KM/H)
- Active lane departure warning system
- Forward Collision Alert
- Active Lane Keep Assist (With steering correction)
- Speed sign recognition & recommendation
- Automatic door locking (from 5KM/H)
- Cruise Control/Speed Limiter
- Spare wheel (Space saver)
- Citroën ConnectedCAM® (built-in Dashcam)
- ABS with Electronic Brakeforce Distribution (EBD)
- Adaptive driver and front passenger airbags (includes passenger airbag deactivation function)
- Driver and front passenger side airbags
- Front & Rear Curtain Airbags
- Alarm (perimetric, volumetric with lift and tilt sensor)
- Automatic door locking when moving off
- Automatic hazard light activation upon heavy brake application
- CDS (Dynamic Stability Control) and ASR (Electronic Anti-skid System)
- Electrically operated child locking function on rear windows and doors
- Coffee Brake Alert (Driver attention alert system)
- Electronic code immobiliser
- Exterior temperature indicator with ice warning
- Programmable cruise control and speed limiter
- 'Seatbelt not fastened' audible and visual alert for front seats
- 'Seatbelt unfastened while on the move' audible and visual alert for front and rear seats
- Speed limit recognition and recommendation

Suspension

- Suspension with PROGRESSIVE HYDRAULIC CUSHION®

In-Car Entertainment

- 8.0" capacitive touchscreen display
- Bluetooth® (telephony & audio streaming facility)
- x1 USB socket (dashboard)
- x1 USB socket (row 2)
- 6-speaker radio

Comfort and Convenience

- Manual Air Conditioning
- Rear air vents (Row 2)
- Heated door mirrors (operated via rear demister button)
- Electrically adjustable door mirrors
- Acoustic laminated windscreen
- Central armrest with butterfly lid (with illumination)
- Steering wheel controls (Telephony & Stereo)
- x2 Map reading lights (Row 1)
- Analogue instrument cluster with central LCD digital display
- Illuminated glovebox
- x2 cupholders in centre console (Front)

Seating

- Grey Silica Cloth seat upholstery
- Height adjustable driver's seat
- Lumbar support on driver's seat
- x3 independent rear seats (with sliding & flat-folding functionality)
- ISOFIX mounts on both outer rear seats
- ISOFIX mounts on front passenger seat
- Reclining function on all x3 rear seats (5 positions)

Interior Features

- Dashboard: open central storage compartment
- Dashboard: closed glovebox, with lid and illumination
- Central armrest with butterfly lid
- Door pockets: front, (including storage for 1.5L bottles /A4 documents)
- Door pockets: rear, (including storage for 75mm diameter bottles)

Boot Area

- 580-720L boot capacity (best-in-class bootspace)
- 12v socket
- Split boot floor
- 2 piece parcelshelf
- x4 fixing rings
- Two-piece (hinged) parcel shelf

Exterior Features

- 17" steel wheels with 'Pentagon' wheel covers
- 3D effect LED taillights
- Airbump in lower door area
- Radio antenna integrated into rear window
- Body-colour exterior door handles
- Body-colour rear spoiler
- Matt black rear bumper fascia
- Body coloured door mirror caps
- Matt black wheel arch extensions
- Satin chrome side window surround
- Matt black upper and lower radiator grille with chrome decor

Exterior Lighting and Visibility

- Automatic headlights
- 3D effect LED rear lights
- LED daytime running lights
- 'Guide me home' headlights

TOUCH : This trim level offers even more comfort & convenience

In addition to the START specification, TOUCH benefits from the following additional features:

Comfort and Convenience

- Rear parking sensors
- Auto Air Conditioning (Bi-zone with Carbon filter)
- Electrically folding door mirrors
- Automatic wipers
- Multi-function leather stitched steering wheel with Satin chrome inserts
- Electrochrome rear-view mirror

Seating

- Height adjustable front passenger seat

In-Car Entertainment

- DAB radio (Digital Audio Broadcasting)
- **Apple CarPlay™**
- Android Auto

Exterior Lighting and Visibility

- Front for lights with cornering function

Exterior Features

- 17" 'Ellipse' alloy wheels
- Roof bars
- Silver Colour Pack:
 - Silver front bumper surrounds
 - Silver inner area of roof rails
 - Silver First airbump surround

FEEL With the perfect balance of character and strength, Feel is the perfect place to start your journey

In addition to the TOUCH specification, FEEL benefits from the following additional features:

Safety and Security

- Active Blind Spot Detection (With steering correction)
- Active Safety Brake (Video: VAEB33): Emergency brake function (operational from 5KM/H to 140KM/H)
- Front parking sensors
- Reversing camera (with top rear vision function)
- Dual Tone Horn

Exterior Features

- 18" 'Swirl' diamond-cut alloy wheels
- Privacy Glass
- Matt black rear bumper fascia with chrome exhaust effect trim

Comfort and Convenience

- 12" digital instrument cluster
- Wireless Phone Charging

Interior Features

- **Stainless steel scuff plates on front door sills (with Citroën branding)**

Lighting & Visibility

- LED lit footwells
- Illuminated vanity mirrors (found in sunvisors)
- LED turn signal indicators: integrated into door mirrors
- LED Daytime Running Lights (DRLs)

FLAIR The perfect companion on any family adventure

In addition to the Feel specification, Flair versions benefit from the following additional features:

Safety and Security

- Keyless entry & push button start
- Adaptive Cruise Control (Manual Transmission models ONLY)
- Adaptive Cruise Control (with stop & Go Function) (EAT8 models ONLY)
- Highway Driver Assist (EAT8 models ONLY)
- Driver Attention Alert
- Extended traffic sign recognition
- Citroën Connect Box emergency & assistance system (E-Call)
- Park Assist function (with auto parallel and bay parking)

Comfort and Convenience

- Opening panoramic roof with LED ambient Lighting & electric sunblind
- Acoustic laminated front side windows

Interior Features

- Aluminium finished pedals & driver's footrest

Seating

- Metropolitan Grey interior: Grey Grained Leather/ Graphite cloth seats
- Citroën Advanced Comfort seats®
- Electrically adjustable driver's seat

In Car Entertainment

- Citroën Connect NAV - (Satellite Navigation)
- Voice Recognition (radio, navigation & telephony functions)

Exterior Features

- 19" 'Art' bi-tone diamond-cut alloy wheels
- Colour Pack: Choice of silver, red or white)
- Gloss black upper radiator grille
- Gloss black rear bumper fascia with chrome exhaust effect trim
- Gloss black rear bumper fascia with chrome exhaust effect trim

- Gloss black upper radiator grille

Exterior Lighting and Visibility

- High Beam Assist (Auto dipping headlights)

Lighting & Visibility

- LED Cabin lighting
- LED lit interior door handles/front cupholders
- x2 cupholders in centre console with (LED) illumination
- x2 LED map reading lights (Rear)

Active Safety brake

Advanced Active Safety Brake: (Standard on all versions)

An intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system is triggered if the driver does not react quickly enough, by activating the vehicle's brakes. A multifunction camera and 24GHz radar located at the top of the windscreen and behind the upper grille are able to detect obstructions on the road. The system is able to detect vehicles that are moving in the same direction or are at a stop, together with pedestrians in the road.

Forward Collision Warning: (Standard on all versions)

Working in conjunction with the Active safety Brake, the distance alert function warns the driver if the vehicle risks a collision with the vehicle in front or a pedestrian in the road. Two levels of warning are available, the first 'Amber' warning provides a visual alert to the potential risk. In a more severe instance a 'Red' visual and audible alert indicate a collision is imminent and driver action is required. Failure to act triggers the braking, a standard feature for every Citroën C5 Aircross, for added peace of mind.

Active Blind Spot Monitoring (ABSM)

Active Blind Spot Monitoring (ABSM): (Standard on FEEL & FLAIR)

Now you can enjoy the feeling of having eyes in the back of your head. Using lateral ultrasound sensors to cover areas out of your field of vision along with the windscreen mounted camera, an LED illuminates in either side door mirror to alert to the presence of a car, lorry, motorbike or bicycle in your blind spot. The system works when overtaking a slower vehicle or when overtaken by a faster vehicle. This intelligent feature operates from speeds as low as 13KM/H right up to the National Speed Limit.

In addition ABSM also features a trajectory correction system in partnership with Active Lane Keeping Assistance. The trajectory correction is applied to the steering if a line is crossed even when the turn indicator is enabled, to try and avoid a collision with an obstacle not detected by the driver.

Adaptive Cruise Control with Stop/Go Function (ACC Stop)

Adaptive Cruise Control with Stop (ACC Stop): (Standard on FLAIR EAT8 models only)

Cruise control as you know it will never be the same again with Citroën C5 Aircross fitted with EAT8 automatic gearbox technology. Controlled via a radar mounted at the front of the vehicle with a range of up to 150 metres, the ACC Stop system provides two key functions:

- Automatic maintenance of the vehicles speed, at the value set by the driver.
- Automatic maintenance of a set distance between Citroën C5 Aircross and the vehicle in front, slowing the vehicle to a stop if required.

The system detects a vehicle driving in front in the same direction and can automatically adapt the vehicle's speed to that of the vehicle in front. This occurs using engine braking and the braking system (in which case the brake lights are lit) to maintain a constant distance.

If the vehicle in front has slowed to a stop, Citroën C5 Aircross will also be brought to a stop by the ACC Stop system. If a fter this no response is received from the driver, the electric parking brake is automatically applied.

Citroën ConnectedCAM (in-built dashcam) (Standard on all versions)

Citroën ConnectedCAM allows you to share your adventures with friends and loved ones, and offers a reassuring eye in the case of an accident. Fun and practical, all at the same time.

Integrated into the car, Citroën ConnectedCAM automatically records your journey and in the unfortunate case of an accident, automatically saves a video recording of what happened, with the moments before and after safely saved on the hard drive. As well as recording the accident, it can also pinpoint the location, time of day and other driving variables instantly.

The Citroën ConnectedCAM provides a lot more than just protection in the case of an accident. The camera can be linked to social media, allowing you to take photos of your adventures and instantly upload them to various social media including Facebook. And if photos aren't enough for you, it is also possible to record short videos that can be downloaded from the car at the end of your journey.

The C5 Aircross will be the 2nd ever car in Ireland to be offered with a factory-fitted dashcam. The first car offered with such technology was the Citroen C3.

Active lane departure warning system

Active lane departure warning system: (Standard on all versions)

Citroën C5 Aircross is always one step ahead. Featuring two lane keeping technologies, the vehicle is able to identify lines on the road via a windscreen mounted camera. The technologies are as follows:

Lane Departure Warning: A system that monitors continuous and discontinuous lines and warns the driver if a longitudinal lane marking on the ground is accidentally crossed. If steering deviation is detected, you are alerted by a flashing indicator on the digital instrument panel and an audible signal in the cabin.

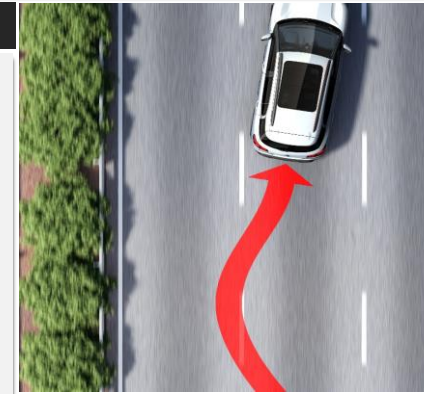

Active Lane Keeping Assistance: In addition to visually and audibly alerting the driver, Citroën C5 Aircross also features LKA. As soon as the system identifies a risk of accidentally crossing one of the marking lines detected on the ground, the steering is gradually corrected

Speed Limit Recognition

Speed Limit Recognition and Recommendation: (Standard on all versions)

Using the windscreen mounted camera, Citroën C5 Aircross features speed limit sign recognition, leaving you in no doubt over the speed limit. Upon detecting a speed limit sign this information is read by the camera and displayed in colour on the 12.3" head-up digital instrument panel.

In addition to been made aware of the speed the driver also has the option to adapt their speed to the speed limit on the particular road via the vehicles cruise control stalk. The vehicle will then adjust its speed accordingly.

Driver Attention Alert

Driver Attention Alert (Standard on FLAIR):

To help you stay sharp and alert behind the wheel, Citroën C5 Aircross features a two stage driver alert system for added safety on the road, comprising:

Coffee break alert (DAA1): (standard across the range) It is important to take frequent breaks when travelling over long distances, to better guarantee your safety and the safety of those around you. All Citroën C5 Aircross feature a timed alert system that operates at speeds in excess of 64KM/H; after two hours of driving a message is displayed recommending that you take a break.

Driver Attention Alert 3 (DAA3): (standard on FLAIR) controlled by a camera at the top of the windscreen designed to analyse the vehicles trajectory, this active system evaluates the vigilance of the driver at speeds of over 64KM/H.

By identifying deviations relative to the road markings, Citroën C5 Aircross is able to determine whether the vehicle's behaviour reflects a certain degree of driver drowsiness or inattention. If it is felt that the driver needs to take better care on the road a visual and audible alert will occur. If more than three instances occur, the driver will be advised to take a break.

Highway Driver Assist

Highway Driver Assist: (Standard on FLAIR EAT8 models only)

Highway driver assist is a step closer to autonomous driving, but still allows you to retake full control of the car at any point. The innovative system regulates the speed and distance in relation to the vehicle in front. It also positions C5 Aircross precisely in its lane by controlling the steering. Operable between 0 and 179KM/H*, it can come to a complete stop and set off again. It makes for driving that's safer and less stressful in traffic jams or on motorways.

Lane Keeping Assist has been designed to work best on lanes of the road that are clearly marked on both sides (motorways and dual carriageways). * Depending on country and speed restrictions

Intelligent Beam Headlights

Intelligent Beam Headlights: (Standard on FLAIR)

Intelligent Beam Headlights give you one less thing to think about when driving at night. Controlled via a windscreen mounted camera, the system continuously analyses driving conditions, for instance the proximity of other vehicles.

Intelligent Beam Headlights automatically switches headlamps to full beam when conditions allow, allowing you to tap into the full potential of the full headlights illumination that offer uniform lighting to reduce eye fatigue,

Citroën Connect Nav

Citroën Connect Nav* (Standard on FLAIR)

The satellite navigation system includes European mapping, 3D city mapping and voice recognition (for radio, navigation and telephone functions).

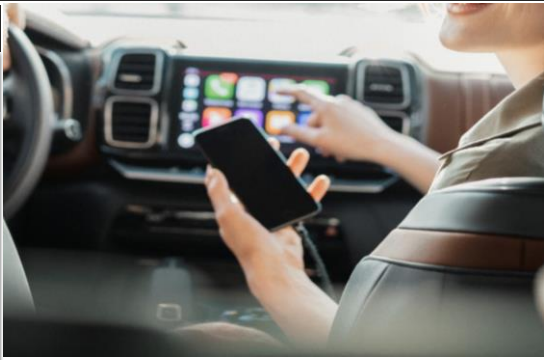

Mirror Screen®

Android Auto/Apple Carplay™ (Standard on TOUCH/FEEL/FLAIR versions)

Allows the mirroring of a compatible smartphone screen to access the key functionality on the handset. Once paired functions are displayed on the 8.0" capacitive colour touchscreen. System features vary by provider/phone and can include navigation, text display, text reading, media functionality voice control.

- Apple CarPlay™
- Android Auto

*Please consult your dealer for a list of enabled Android phones - compatibility is based on the phone providers' original operating system. CarPlay® is compatible with versions beyond and inclusive of iPhone 5/5c/5s.

180° Colour Reversing Camera

180° Colour Reversing Camera: (Standard on FEEL & FLAIR)

A camera located on the rear of the vehicle is linked to the 8.0" capacitive colour touchscreen. Offering increased visibility when reversing, with a selection of views to choose from, you'll never look back:

- Rear Grid View: a clear view of obstructions to the rear of the vehicle coupled with grid lines oriented to the positioning of the steering wheel, offering perspective for distances of one and two metres respectively from the rear bumper.
- 180° View: Divides the screen into three zones, offering a clear view of vehicles approaching from the side. Perfect for safely reversing out of parking spaces.
- Overhead View: the camera records the surroundings during a manoeuvre to reconstitute an overhead rear view of the vehicle in its immediate environment, making it easier to manoeuvre between surrounding obstacles.

Progressive Hydraulic Cushions®

Progressive Hydraulic Cushions®: (Standard on all versions)

Experts in the field of chassis and suspension, Citroën has developed a new suspension system, designed to improve damping while maintaining passenger comfort, which is a Brand characteristic our customers have come to value the most.

The operating principle is simple but the result is impressive. Whereas a conventional suspension system includes shock absorbers with springs and mechanical bump stops which can cause abrupt changes to the vehicle dynamics, Citroën's system adds hydraulic stops – one for rebound and one for compression to reduce rebound and compression forces applied to the chassis and improve the handling/comfort balance.

This has become described as a 'flying carpet' like ride as it improves the absorption of road

Foot operated 'Hands Free' tailgate/Keyless Entry and Start

Foot operated 'Hands Free' tailgate: (Optional on FEEL & FLAIR)

Featuring a sensor located under the rear bumper, a simple foot movement underneath the bumper is all that is required (vehicle key must be within range) to open and close the tailgate. In addition the tailgate can be electrically operated using the exterior door handle, buttons on the dashboard, and keyless entry enabled key fob. With a large opening aperture the tailgate provides enhanced practicality and access.

Keyless Entry and Start: (Standard on Flair)

In conjunction with foot operated 'Hands Free' tailgate feature is keyless entry and go. Using sensors mounted in the exterior door handles, Citroën C5 Aircross can be opened without removing the key from your pocket or bag - simply grab the handle and the vehicle will automatically

Grip Control® with Hill Descent assist

Grip Control®: (Available exclusively with EAT8 versions of TOUCH, FEEL & FLAIR models only)

To allow you to take on a variety of weather and terrains, Citroën C5 Aircross can be specified with Grip Control®, a system designed to optimise traction in low-grip conditions. It adapts to the terrain by acting on the front wheels: in doing so this saves the weight normally associated with a more conventional four wheel drive system. Grip Control® offers the driver a choice of five driving modes, accessed via a rotary dial on the dashboard.

The hill descent assist function controls the speed of the vehicle when descending slopes reducing the risk of slipping as it descends. In either forward or reverse gears, when engaged, it assists the driver in moving the vehicle at constant speed, while gradually releasing the brakes. It operates even at very low speed and in neutral position of gearbox.

ESP Off:

Enables the disconnecting of the dynamic stability control (ESP) and traction aids (ASR/Grip Control), up to 50 KM/H to give the driver complete autonomy. These systems are automatically reconnected

Normal Mode:

Calibrated system with a low, fixed level of wheel spin based on a compromise between the different types of grip generally encountered in normal day to day driving.

Snow Mode:

The system adapts to the grip conditions encountered by each wheel when starting. When advancing, the system optimises wheel spin to guarantee the best acceleration based on the available traction. Recommended in cases of deep snow and steep inclines.

Mud Mode:

This mode authorises a lot of wheel spin at start-up for the wheel with the least grip, this removes mud and re-establishes traction. Meanwhile, the wheel with the most grip is provided with the most torque possible. This mode is also useful on wet grass.

Sand Mode:

This mode allows a small amount of simultaneous wheel spin on the two drive wheels, enabling the vehicle to advance and reduce the risk of sinking.

Euro NCAP Rating

Euro NCAP Rating: 5 STAR (Applicable to the entire C5 Aircross range)

Citroën C5 Aircross offers optimum protection for you and your family. All models feature 6 airbags as standard. Airbag protection comprises:
 Driver & front passenger airbags: providing frontal protection for front seat occupants.
 Front side airbags: located in the seat frame on the outside edge of the front seats frames; they inflate between front seat occupants and the front doors, providing, chest, abdomen and pelvic protection in a side impact.
 Curtain airbags: located in the cant rail on either side of C5 Aircross, these deploy in a side impact and provide head protection for both front and rear occupants in a side impact.
 In addition, deployment of the airbags causes the fuel supply to be cut off, doors will automatically unlock, hazard warning lamps will activate. Citroën Connect Box (standard on FLAIR) will automatically trigger and contact the emergency services if no response is received from occupants on-board.

In recognition of all of the above, Citroën C5 Aircross was awarded the maximum, 5 star rating from Euro NCAP, the largest independent vehicle safety assessor in Europe.

Intelligent Storage Solutions

Intelligent Storage Solutions: (Standard across the range)

Citroën C5 Aircross has been carefully designed to offer useful storage solutions to accommodate all of the items needed for daily life, plus a bit more for good measure. With over 20 litres of storage on offer, areas include:

Central front armrest with butterfly-wing opening and illuminated storage compartment: Offering storage space for a 1.5L bottle under the opening lid, also includes illumination.

Front Door Pockets: Offering 10 litres of storage in each, these can also accommodate 1.5 litre bottles.

In addition all versions feature opening glove boxes, open central storage compartments in front of the centre console for smart phones, two 75mm diameter cup holders in the front and rear door pockets at over 5 litres for each that can store two 0.5L bottles in each.

Advanced Comfort Seats

Advanced Comfort Seats: (Standard on FLAIR)

Citroën C5 Aircross has been designed with the Citroën Advanced Comfort programme at its core, and like other models in the range introduces Advanced Comfort seats. These seats consist of a **high density foam structure** to provide support, reduced transmission of vibration and good aging, but are topped with a **15mm thick additional foam** layer to provide that 'sinking into the sofa' look and feel.

Opening panoramic glass roof

Opening panoramic glass roof : (Standard on FLAIR)

Enjoy the world outside with Citroën C5 Aircross. Spanning more than a meter in length the glass roof bathes the cabin in natural light, and enhances the interior ambiance on board .

Further enhancing the feeling of being outside the panoramic roof can be opened at the press of a button, allowing driver and passengers to enjoy the fresh air of their surroundings.

If the summer sun proves to be too much the panoramic glass roof is fitted with an electric blind and to further enhance the mood onboard at night, ambient lighting flanks the inner sides of the glass panels to give a soft glow.

3 independent rear seats

3 independent rear seats: (Standard across the range)

In row 2 Citroën C5 Aircross passengers can enjoy enhanced comfort. As standard on all versions the seats of row 2 are independent from each other so can be adjusted for individual comfort.

With 150mm of sliding travel, allowing the passengers to find the optimum position and balance between knee room and boot volume, combined with a 5 position back rest ranging from 19° to 26.5° of recline passengers in row 2 can relax in comfort unheard of in the SUV segment.

Best-in-class bootspace: 580 - 720 Litres

Boot Space and Modularity:

With C5 Aircross, modularity is a key feature that makes it stand out from the crowd, offering flexibility unlike any other mid-sized SUV in the market. With three individual rear seats that can slide and fold independently of each other and a two position boot floor the boot capacity can be altered to meet the needs of the customer on each day, ranging from 580l to 720l with all five seats still upright. Fold the row 2 seats down and it becomes 1,630litres! These practical touches include:

Two position boot floor (Standard on all versions): In its high position (see image below) provides the customer with a flat-load surface between sill and boot floor for easier loading . In its low position (see image below)the boot floor allows for the boot to be at maximum capacity with the rear seats up.

Load securing rings (Standard on all versions): Fitted to the corners of the boot, these handy tie down points allow a boot net to be fitted (see image below) or just secure a load ensuring less damage to the object.
