SAFETY

IT KEEPS YOU SAFE.

When your business involves you being on the road every day, safety is paramount. The **NEW FIORINO** offers all the safety equipment and driving aids such as **ABS** with electronic brake force distribution **EBD**, **ESC** complete with **ASR** (Anti Slip Regulation) and **HBA** (Hydraulic Brake Assist). **HILL HOLDER** for those tricky hill-starts and **PARKING SENSORS** for easier manoeuvrability. Front **AIRBAGS** and front side airbags, which protect both head and chest. **CRUISE CONTROL** helps you cruise along the motorway without having to press the accelerator pedal.

TRACTION +

Is an aid for driving and setting off in poor grip conditions (snow, ice, mud, etc.) which allows the drive force to be distributed over the same axle when both wheels are slipping. It acts by braking the wheels with poor grip (or those slipping more than the others), thereby transferring the drive force to those which have more grip on the ground.

CRUISE CONTROL

It allows you to drive on long and straight roads with few driving changes (motorways) at a pre-set speed without having to press the accelerator pedal.

ESC

The Electronic Stability Control is a system that controls vehicle stability in the event of tyre grip loss, helping to maintain directional control.

HILL HOLDER

Integrated in the ESC system, it automatically activates in uphill/downhill with engine running and blocks the vehicle for few seconds without you having to press the brake pedal.

URBAN CUSTOMIZATION

PERSONALITY ALWAYS MAKES A DIFFERENCE. AT WORK TOO.

The **NEW FIORINO** is complete with a full range of accessories, all top quality, created by **MOPAR: THE REFERENCE BRAND FOR SERVICES, CUSTOMER CARE, GENUINE PARTS AND ACCESSORIES** of Fiat Chrysler Automobiles.
