Visionary. Ingenious. Remarkable.
Every vehicle bears his signature.

Henry Ford

Travel in safety and comfort.

When it comes to moving passengers quickly, safely and in comfort, there's no smarter choice than the new Ford Transit Minibus range. Bigger, brighter and more versatile than ever, it's the purpose-built minibus that puts people first.

Model shown is a new Ford Transit Minibus L3 H2 Trend in Moondust Silver metallic paint (option) with 16" alloy wheels. (option).
Model shown (right) is a Ford Transit Minibus L3 H2 Trend in Deep Impact Blue metallic paint (option) with 16" alloy wheels (option).

Access made easy.

Laid out with offset double seats on one side of the aisle and single seats on the other, the factory-built Transit Minibus M2 offers unrestricted access to the passenger compartment. An extra-wide sliding side door provides two regulation-size exits for easier entry and exit. All models feature a power-operated side step, and passenger assist handles conveniently located on both sides of the side door.

Features include

- Spacious and comfortable interior
- Single/double seat layout with straight aisle
- Wide kerbside sliding door
- Power-operated side step
- Passenger assist entry/exit handles
- Low entry height
- Regulation-size exits
- Non-slip flooring
- Factory-built to comply with the latest European Community Whole Vehicle Type Approval (WVTA) M2 minibus legislation

Power-operated side step

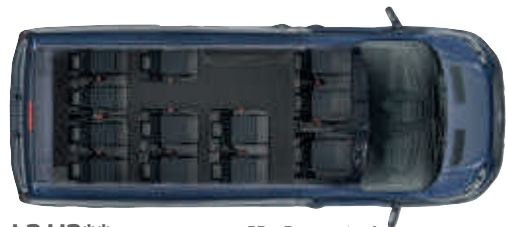

For safe and easy passenger access, a power-operated side step extends automatically when the sliding door opens. When the door is closed, the step automatically retracts. (Standard)

More flexibility. Greater choice.

Transit Minibus provides the perfect mix of passenger carrying ability and load-carrying potential. For added flexibility, L3 models are now available with the choice of deleting the fifth row of seats for increased luggage capacity, while L4 models are available without the sixth row of seats. (Option)

L2 H2**

11+1 seats*

L3 H2/H3

13+1 seats

L4 H3

16+1 seats

*Wheelchair attachment points are the responsibility of your appointed converter.
 **L2 H2 version is not available for Republic of Ireland
 Main image shows is a Ford Transit Minibus Trend.

A great place to be.

Transit Minibus Trend provides even greater comfort with height-adjustable head restraints, reclining seatbacks and armrests. For added versatility, selected rear seats can be removed to accommodate wheelchairs* or provide extra luggage space.

Smart storage.

With its light and spacious fully-trimmed interior, Transit Minibus has been designed to make even the longest journey a pleasure. New overhead storage shelves (standard on L4 H3 models, optional on L3 H3) offer convenient stowage. Additional comfort is provided by optional rear air conditioning with aircraft-style vents and individual LED reading lights for each rear seat.

Model shown is a Ford Transit Minibus L4 H3 Trend.

Note Transit Minibus H3 (high roof) cannot be fitted with a roof rack.

Rear air conditioning

For a more comfortable travel experience, a separate air conditioning system is available for the rear passenger compartment, featuring its own rotary controls. (Standard on Trend, option on Base) Each row of seats is provided with two foot-level outlets for heating and overhead air conditioning vents for efficient air circulation. Individual air vents are provided when combined with overhead storage shelves on H3 models.

Room and comfort to spare.

Light, bright and easy to drive, Transit Minibus sets new standards for vehicles in its class. With exceptional levels of finish and refinement, smart driver-oriented technology, plus a range of practical and thoughtful features – like a fold-down table that's integrated into the dual front passenger's seat and large enough for a laptop computer – it's the most comfortable and professional minibus on the road.

•Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained on the rear seat.

Model shown is a Ford Transit Minibus Trend with High Visibility Pack (standard), radio/CD/SD-navigation system (option), Lane Keeping Alert (option) and front passenger's airbag (standard).

Use your voice like another pair of hands.

Ford SYNC lets you play music and make and receive hands-free calls – all with simple voice commands. With SYNC AppLink you can even control apps* on your smartphone using voice commands. And the Ford Emergency Assistance* feature is designed to assist occupants to place an emergency call and provide the emergency services with vehicle location information in their own language. (Standard)

*Compatible mobile phone required. You can browse a list of AppLink-compatible apps from your regional Ford website, or via the Ford App Catalog available in iOS and Android stores. Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a direct call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions. SYNC AppLink and Emergency Assistance are not supported by all European languages.

Big on safety and driver assistance.

Safety is important to us, so the new Transit Minibus does all that it can to help protect you, your passengers and those around you.

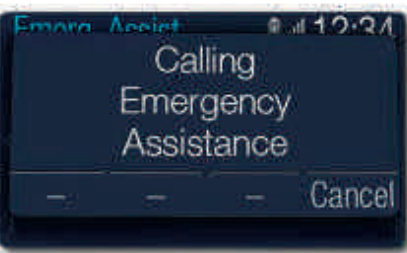

Driver Alert^{®2)}

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. Initially, a warning icon is displayed in the instrument cluster, followed by a warning chime if driving alertness further declines. (Option as part of a pack)

Emergency Assistance**

Innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a direct call to the local Communications Centre (in more than 40 European countries and regions), following a vehicle crash event involving an airbag deployment or fuel pump shut off. (Option, part of Ford SYNC)

****Compatible mobile phone required. Emergency Assistance is not supported by all European languages.**
Note The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

Side curtain airbags^{®1)}

Designed to help protect the driver and front passenger's heads from injury. (Option)

Lane-Keeping Alert^{®*2)}

It only takes a momentary slip in concentration to drift out of your lane when driving on the highway. Lane-Keeping Alert[®] is designed to recognise when you approach the road markings without using the indicator, and alerts you with vibrations through the steering wheel. (Option as part of a pack)

Electronic Stability Control (ESC)

ESC^{®1)} is designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. (Standard)

ISOFIX child seat fixing points

Second row seats incorporate ISOFIX child seat fixing points with top tether mounts for extra security. (Standard)

[®]Uses sensors.
^{*}Operates at speeds over 70 km/h on multi-lane roads with clearly visible lane markings.
¹⁾Safety feature.
²⁾Driver assistance feature.

Features for more comfortable driving.

Rear air conditioning

For a more comfortable travel experience, a separate air conditioning system is available for the rear passenger compartment, featuring its own rotary controls. (Standard on Trend, option on Base) Each row of seats is provided with two foot-level outlets for heating and overhead air conditioning vents for efficient air circulation. Individual air vents are provided when combined with overhead storage shelves on H3 models. (Overhead shelves standard on L4 H3, optional on L3 H3)

Rear-view camera with Trailer Hitch Assist

Select reverse gear and the image from the rear-view camera is displayed automatically in the rear-view mirror or satellite navigation Ford SYNC screen. Marker lines overlaid on the camera image indicate where the vehicle is heading. (Option)

Parking distance sensors, front and rear²⁾

An audible warning helps you judge the distance between your vehicle and obstacles at the front and rear for easier parking and manoeuvring. (Option on Base, standard on Trend)

230 V power socket^{step}

A handy 150 Watt 230 V power socket, located between the driver's and passenger seats, can be used to charge laptops or other electrical equipment without the need for special adaptors. (Option)

Auto High Beam[®]

When oncoming traffic is detected, the headlights dip automatically, then revert to high beam when the vehicle has passed. (Standard, as part of Lane-Keeping Alert)

Steering wheel with remote audio controls

Allows you to operate the audio system and trip computer without taking your hands off the wheel. (Standard with Ford audio systems)

[®]Uses sensors.
²⁾Driver assistance feature.

Go further for less.

New Transit Minibus's Duratorq TDCi diesel engines are among the most refined and efficient available. Featuring the latest common rail technology, they not only offer strong, dependable performance, but deliver excellent fuel consumption and low CO₂ emissions too.

Ford ECONetic Technology

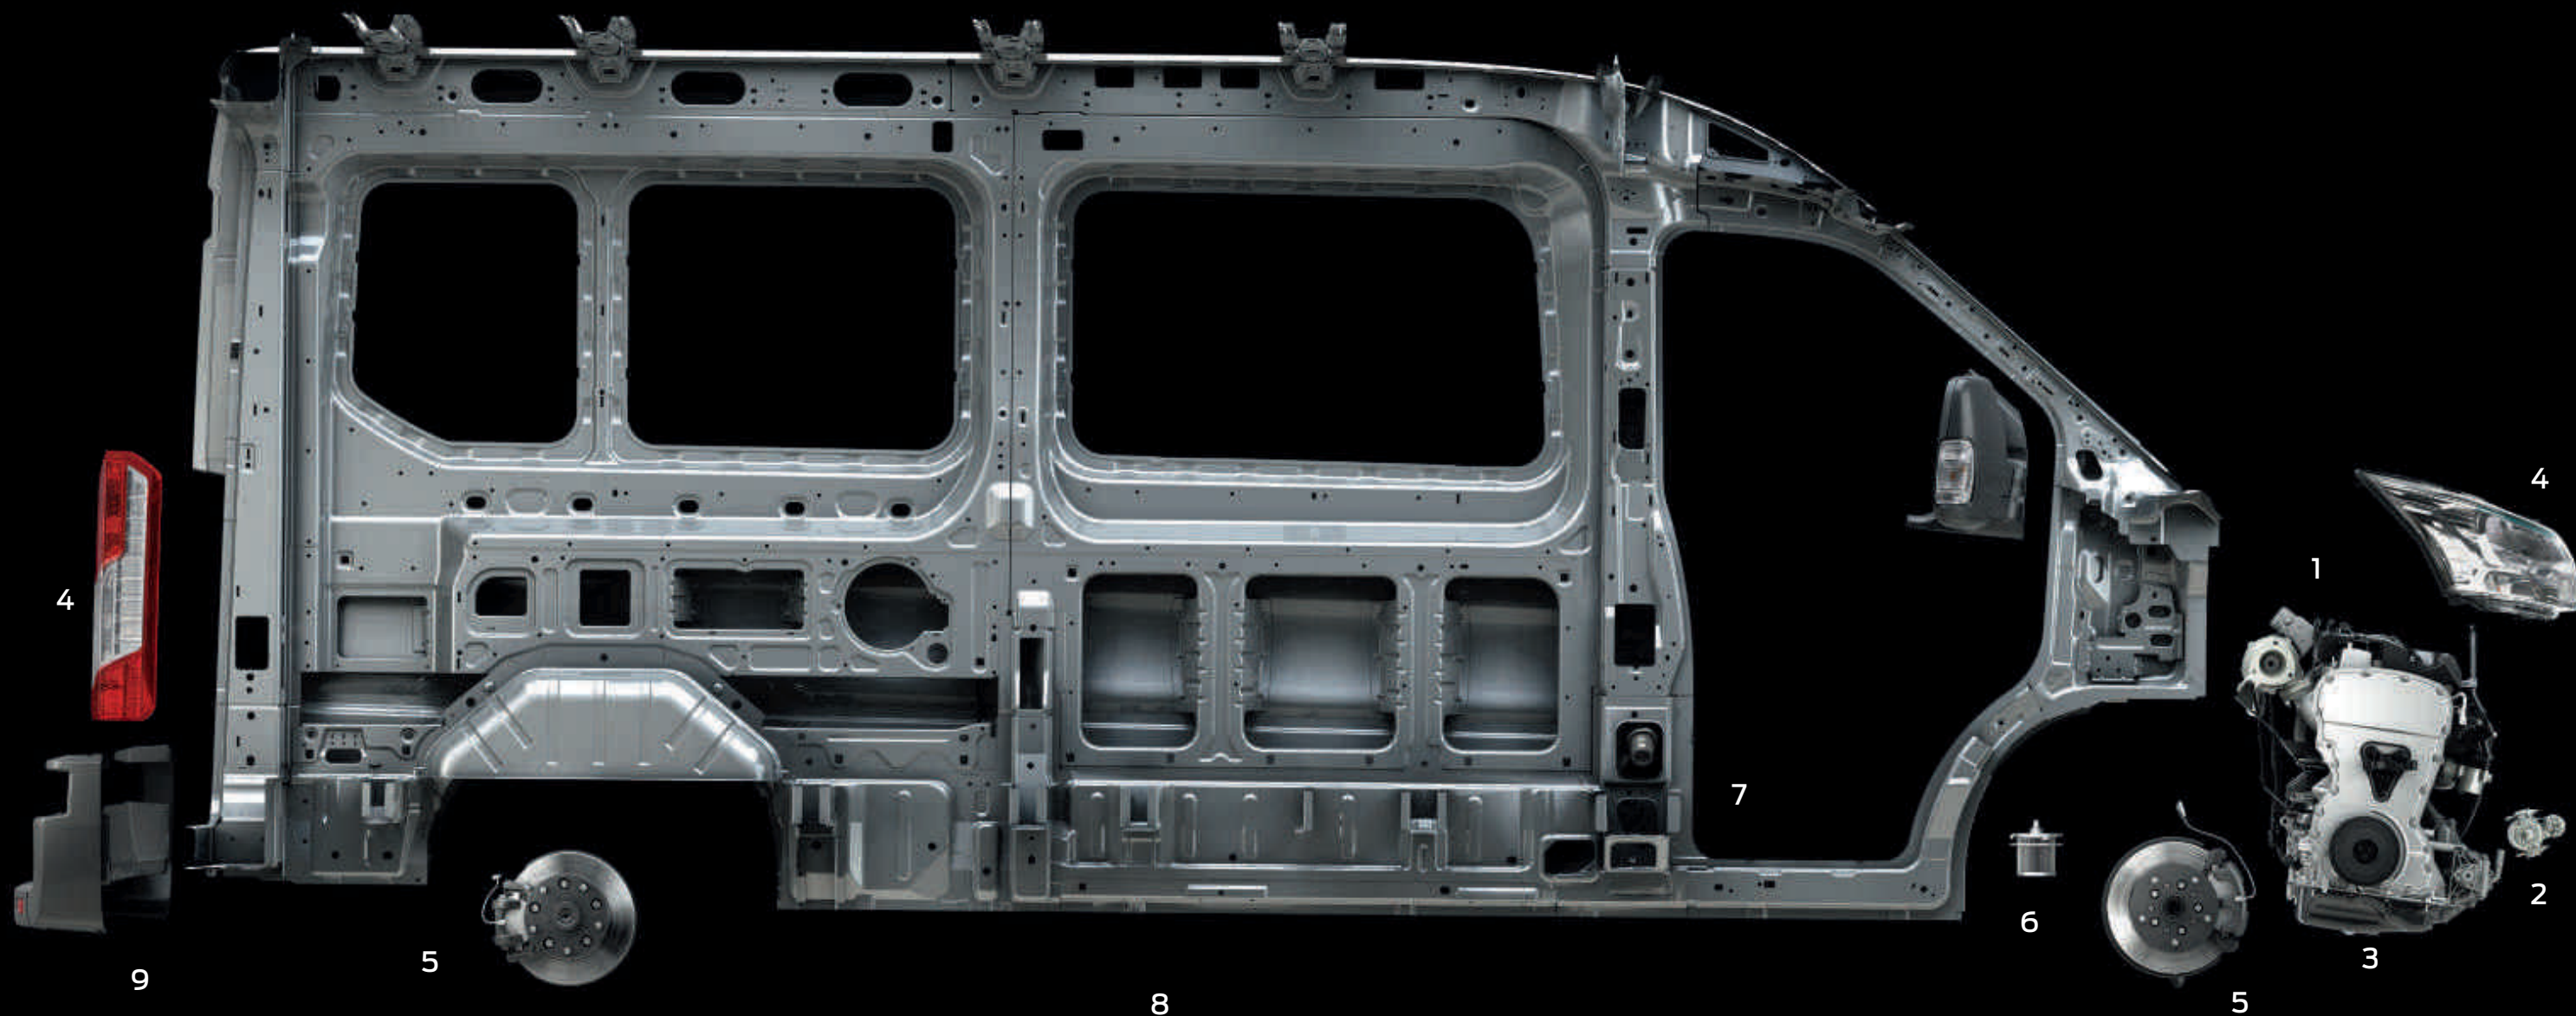

Ford ECONetic Technology brings together a range of vehicle features and technologies to deliver improved fuel economy, reduced emissions and lower cost-of-ownership, without compromising on performance or functionality.

Ford ECONetic Technologies include

- Ford Duratorq TDCi advanced diesel engines – provide exceptional fuel economy and low CO₂ emissions
- Ford Auto-Start-Stop – switches off the engine when the vehicle is stationary
- Ford Smart Regenerative Charging – charges the battery only when needed
- Shift Indicator light – advises driver of optimum time to change gear
- Ford Eco Mode – encourages economical driving behaviour
- Acceleration Control – prevents excessive acceleration when the vehicle is lightly laden
- Ford Battery Management System – improves battery life, fuel consumption and ensures ready-to-go reliability

Note The availability of Ford ECONetic Technology varies by model. Please ask your Ford Transit Specialist Dealer for details. For more information on our sustainability initiatives visit ford.com/go/sustainability

Model shown is a Ford Transit Minibus L2 H2 Trend in Moondust Silver metallic paint (option) with 16" alloy wheels (option).

The sum of all parts
adds up to less cost.

Quality and durability are built into the Transit Minibus at every step. After many years of service it will feel as good, and be as rewarding to drive, as the day you picked it up.

1. Extended service intervals of up to 2 years or 50,000 km, whichever occurs first, further reduce your running costs. (Standard)

2. Auto-Start-Stop automatically switches off the engine when you come to a halt and put the vehicle in neutral. Restarts smoothly when you want to move off, reducing fuel consumption and exhaust emissions. (Standard)

3. Engine oil monitor warning light will illuminate if the condition of the engine oil deteriorates between services. (Standard)

4. High-level light units are mounted above the bumper line, to help keep them out of harm's way and protect them from low speed accident damage. (Standard)

5. Brake pad wear sensors warn when the pads are due for renewal. (Standard)

6. Fuel filter sensor warns of water ingress or a blockage of the fuel system. (Standard)

7. Ford Easy-Fuel capless refuelling system – a unique safeguard ensures that nobody can accidentally fill up with the wrong fuel. Plus, no dirty fuel caps to touch. (Standard)

8. 12-year perforation warranty provides reassurance against perforation of the bodywork from the inside of the panel. (Standard)

9. Multi-piece rear bumper design helps to keep repair costs low. (Standard)

Keep your business on track.

Transit Minibus is fitted with our innovative new Curve Control⁽¹⁾ technology. The feature – part of Transit's standard Electronic Stability Control⁽¹⁾ system – senses when a driver takes a curve too quickly and can rapidly reduce engine torque, and apply brakes to individual wheels, to help keep the vehicle safely under control.

Further ESC features include

- Curve Control⁽¹⁾
- Traction Control System⁽¹⁾
- Hill Start Assist⁽²⁾
- Trailer Sway Control⁽¹⁾
- Load Adaptive Control⁽¹⁾ (LAC)
- Emergency Brake Assist⁽¹⁾ (EBA)
- Emergency Brake Warning⁽²⁾
- Roll Stability Control⁽¹⁾ (RSC)
- Torque Vectoring Control⁽²⁾

Adaptive Cruise Control⁽³⁾

Set your desired speed and Adaptive Cruise Control maintains a pre-set distance from the vehicle in front. If the sensors detect traffic slowing ahead, your vehicle automatically slows down. When traffic has cleared, your vehicle accelerates back to the pre-selected speed. (Option on Trend)

⁽¹⁾Uses sensors.

⁽²⁾Safety feature.

⁽³⁾Driver assistance feature.

Ford Easy-Fuel capless refuelling system
(Standard. Capped system available as an option)

Base

Exterior features

- Daytime running lights
- Door mirrors with large blind spot eliminator
- Door mirrors with integrated side indicators
- Passenger's sliding side load door and power step
- Half cap wheel covers (front wheels only on DRW models)
- Headlight courtesy delay
- Wide bodyside mouldings
- Rear mudflaps

Interior features

- Lane-Keeping Alert and Driver Alert
- Ford SYNC radio/CD system with 3.5" dot matrix multi-functional display, Voice Control and AppLink (includes Emergency Assistance*), audio streaming, USB connectivity, steering wheel remote audio controls and four frontspeakers
- Driver's 8-way seat adjust
- Rake- and reach-adjustable steering column
- Driver's and front passenger's♦ airbags
- Passenger's 4-way seat adjust
- Electrically-operated front windows
- Remote central locking
- Overhead storage shelves (standard on L4 H3 models, optional on L3 H3)
- Easy-clean rubber floor covering
- Passenger side load door footwell illumination

Option Pack

- Low Visibility Pack (contents include heated windscreen, washer fluid sensor and electrically-operated and heated door mirrors)

For further option availability, please refer to the specification section.

Engines

- 2.2 125 PS (HDT Euro 6)
- 2.2 155 PS (HDT Euro 6)

***Note:** A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained on the rear seat.

*Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a direct call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. Electronic Stability Control

Transit Minibus is fitted with Electronic Stability Control (ESC)⁽²¹⁾ as standard. The advanced system constantly monitors the path the vehicle is following and compares it to the driver's intended course. If ESC senses a significant difference, it automatically reduces engine torque and applies brakes to individual wheels to help stabilise the vehicle and keep it safely on track.

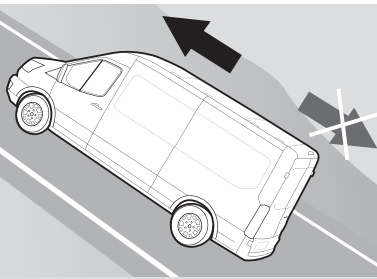

Curve Control⁽²¹⁾

Senses when a driver takes a curve too quickly, and can rapidly reduce engine torque – and apply brakes to individual wheels – to help keep the vehicle safely under control. (Standard)

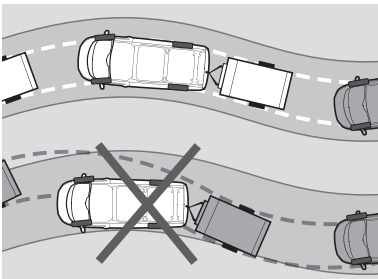

Roll Stability Control⁽²¹⁾

Ford's unique roll-rate sensor helps the Roll Stability Control system to keep the tyres grounded under conditions of high centre of gravity and when driving through off-camber turns. (Standard)

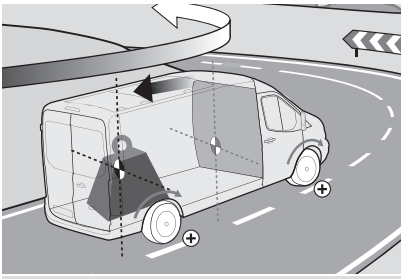

Hill Start Assist⁽²²⁾

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, so is ideal for towing and pulling heavy loads. (Standard)

Trailer Sway Control⁽²¹⁾

When it detects trailer sway, the system is designed to reduce engine torque and apply the brakes to the appropriate wheel(s) to help maintain control – standard with all Ford tow bar. (Option and accessory)

Load Adaptive Control⁽²¹⁾

Designed to adjust the responses of the ESC⁽¹⁾ system to compensate when the vehicle is unladen, partially- or fully-laden. (Standard)

● = Standard, ○ = Option, at extra cost, □ = Part of an option pack, at extra cost.

A place for everything

Transit Minibus's driver-focused cab combines modern good looks with smart stowage solutions. With plenty of space for bottles, phones and papers, it will help make your workday easier and more efficient.

Adjustable driver's seat and steering wheel

An adjustable driver's seat with armrest and a steering wheel that adjusts to suit your height and arm length mean you can find your ideal driving position with ease. (Standard)

Lidded storage compartment with power point and USB port

Cleverly concealed storage compartment, located above the instrument cluster, features a 12-volt power supply and USB port. (Standard with Ford audio systems)

230 V power socket

A handy 150 Watt 230 V power socket, located between the driver's and passenger seats, can be used to charge laptops or other electrical equipment without the need for special adaptors. (Option)

Electrically-operated driver's seat

A 10-way electrically-adjustable heated driver's seat with lumbar support is an ideal choice for vehicles with multiple drivers. (Option on Trend)

Keeping you informed

Tyre Pressure Monitoring System
Allows you to monitor tyre pressure while on the move. System alerts you if it detects that a tyre's pressure is too low, such as in the case of a puncture. (Option, not available with DRW)

All-weather floor mats
Equipped with the Transit nameplate. All-weather floor mats are tailor-made to fit your Ford perfectly and protect against dirt and damp. Securely fixed directly onto the vehicle's floor, the driver's mat cannot slip and interfere with the pedals. (Accessory)

Impressive turning circle

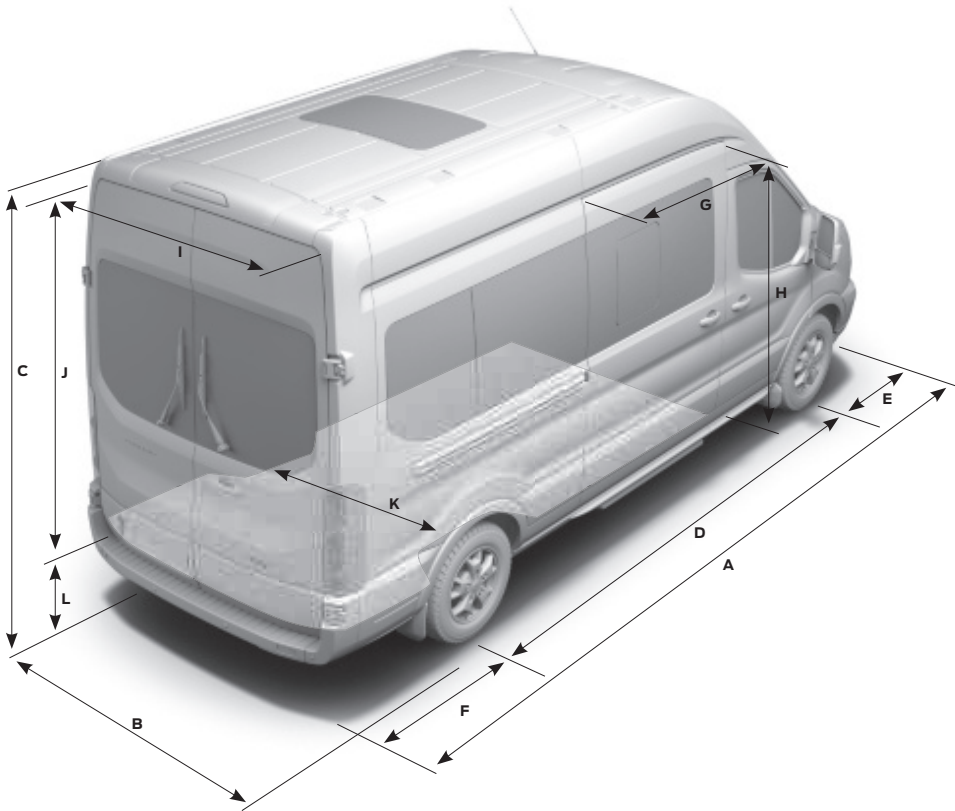

13.3 m turning circle*
The Ford Transit Minibus feels surprisingly car-like to drive, with power-assisted steering, an impressive 13.3 m turning circle* and excellent driver visibility, courtesy of the new larger windscreen and side windows.
*Measured kerb-to-kerb, 13.3 m L3 (LWB) and L4 (LWB EF).

Dimensions

		L3 H2 (SRW) 14/15-Seat RWD	L3 H3 (SRW) 14/15-Seat RWD	L4 H3 (DRW) 17/18-Seat RWD

M	Luggage space width at floor	-	1749	-
Turning circle (m)				
Kerb to kerb with 16" wheels		13.3	13.3	13.3

L3 = Long wheelbase, L4 = Long wheelbase extended length. H2 = Medium Roof, H3 = High Roof. RWD = Rear wheel drive. SRW = Single Rear Wheel, DRW = Dual Rear Wheel. All dimensions are subject to manufacturing tolerances and refer to minimum specification models and do not include additional equipment. These illustrations are for guidance only. *Height dimensions show the range from minimum to maximum of a fully laden, lowest payload vehicle to unladen highest payload vehicle.

Weights, loads and performance

	Gross payload ^{a)}	Gross vehicle mass (kg)	Kerb mass (kg)*	Front axle plated mass (kg)	Front axle kerb mass(kg)	Rear axle plated mass (kg)	Rear axle kerb mass (kg)	Axle ratio	Max. GTM (kg)	Max trailer weight braked (unbraked)	CO ₂ emissions (g/km) ¹⁰⁰	Fuel consumption in L/100 km (mpg) ¹⁰⁰		
												Urban	Extra Urban	Combined
410 L3H2 Minibus (14+1 seats)														
2.2 Duratorq TDCi 125PS/155PS Stage VI HDT	1302	4100	2798	1850	1419	2500	1379	3.31	5500	2450(750)	196	9 (31.4)	6.5 (43.5)	7.4 (38.2)
460 L4H3 Minibus (17+1 seats)														
2.2 Duratorq TDCi 125PS/155PS Stage VI HDT	1328	4600	3272	1850	1330	3120	1942	3.31	5350	1800 (750)	196	9 (31.4)	6.5 (43.5)	7.4 (38.2)

L3 = Long wheelbase, L4 = Long wheelbase extended length, H2 = Medium roof, H3 = High roof, SRW = Single rear wheels, DRW = Dual rear wheels. *Kerb mass is affected by many factors such as bodystyles, engines and options. It is the weight of a standard-specification base vehicle (different series will have different kerb masses), including fluids and fuel tank 90% full, but without the driver (75kg), crew or cargo. Payload within this guide is the difference between gross vehicle mass (GVM) and kerb mass with a further 75kg deduction for the weight of the driver. It must be noted that actual weight will always be subject to manufacturing tolerances which may result in payload variations between this guide and actual weight. For customers intending to load vehicle close to maximum payload, we suggest you also add a margin for error of 5% of Kerb Mass to the Kerb Mass figure before calculation, to reduce risk of overloading. NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use. ¹⁰⁰The declared fuel/energy consumptions and CO2 emissions are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO2 emissions may be specified for a vehicle variant and not for a single vehicle. The applied standard test procedure enables comparison between vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle; driving behaviour as well as other non-technical factors are very important in determining a vehicle's fuel/energy consumption and CO2 emissions.

Making life easy

Our range of finance, insurance, service and assistance options is designed with just one thing in mind – making life easy for you.

Ford Credit

Your local Ford Specialist Dealer can offer advice on the various ways of financing your purchase. They can help you complete an application and get a decision, usually within one hour. Alternatively, our Ford Credit sales desk is always happy to help on ph: 1890 812 333.

Business Hire Purchase is a straightforward way to finance your business vehicle. Funding your vehicles by a separate line of credit leaves working capital free to be used in the business.

Contract Hire is the flexible way to finance, and the ideal plan if you are looking to regularly renew your vehicle. It includes an arrangement at the outset whereby, the vehicle is returned to the supplying Ford Dealer on completion of the term.

Ford Insure You can contact our call centre on 1850 449 444. Call centre opening times are: Monday – Friday: 9am to 8pm (excluding Bank Holidays). Why not try us out?

Services

We understand that a Dealer network committed to meeting the needs of commercial vehicle customers is just as important to your business success as having a great commercial vehicle. Our Ford Dealers provide a range of additional services tailored to your needs, making it their business to keep your business going.

To find the location of your nearest Ford Dealer, visit www.ford.ie

Ford Protect Every new Ford Vehicle is protected by a 2-years/unlimited kilometres bumper-to-bumper warranty. Upgrades are also available, giving you the option of worry free motoring for up to 4 years* (commercial vehicle) and 5 years* (passenger car).

Ford Perforation Warranty Every new Ford commercial vehicle is covered by the Ford Perforation Warranty from the date of first registration* for 12 years.

Ford Assistance All new Ford light Commercial Vehicless are supplied with 1 years' Ford Roadside Assistance cover, which can be extended for free upon having your vehicle serviced at your Ford Dealership*.

Ford Accident Repair Centres Because no one knows Ford like we do, Ford Repair Centres are the perfect choice for repairing your Ford.

The Ford Transit is covered by the Ford Corrosion Protection Warranty for 12 years from the date of first registration. Subject to terms and conditions.
Note The vehicle images used are to illustrate body colours only and may not reflect current specification. Colours and trims reproduced within this brochure may vary from the actual colours, due to the limitations of the printing processes used.

Special Vehicle Options (SVO)

While the Ford Commercial Vehicle range already offers an extensive choice of off-the-shelf features and options, the Special Vehicle Options (SVO) programme goes a step further. Practical options range from heavy-duty batteries to a choice of over 100 colours to match your company's livery.

For more information, please speak to your local Ford Transit Specialist Dealer.

Zinc coating Phosphate coat Electrocoat Top coat Clearcoat

12-year perforation warranty

The new Transit owes its durable exterior to a thorough multi-stage painting process. From the wax-injected steel body sections to the hard-wearing top coat, new materials and application processes ensure it will retain its good looks for many years to come.

Colour and trim

Choose the body colour that you think best reflects your business brand.
