

MAZDA CX-30

SKYACTIV G

MAZDA CX-30

Introducing the All-New CX-30, a brand-new addition to the Mazda family and the second in our next generation of cars. Compact on the outside and spacious on the inside, it has the flowing beauty of a coupe and the bold toughness of an SUV, with refined quality in every area. It takes the sense of togetherness you feel only with a Mazda to a new level, creating a unique oneness between car and driver. The way it looks. The way it moves. But most importantly the way it feels.

## ART IN MOTION

The All-New CX-30 is the latest evolution of our Kodo design language. By creating a fresh feeling of movement, it achieves styling with both the beauty of a work of art and a dynamic sense of power. Inspired by and rooted in Japanese aesthetics, curves with poise and balance and the play of light and shade combine to create a sensuously powerful form.

## COMFORT AND JOY

Everything about the All-New CX-30 has been designed for a more relaxing and stimulating experience, for both drivers and passengers. Through studying human sensory characteristics, the quietness of the cabin has been greatly enhanced, by reducing both noise generation and improving insulation.

KODO: SOUL OF MOTION

Our design philosophy is simple, yet elegantly capturing energy in motion, even at a touch. Created for humans by humans. Hands on clay, shaping form with warmth and precision. Eliminating all that is unnecessary, leaving only what is beautiful. Transferring the energy of the maker into every nuance. We call this

Kodo: "Soul of Motion" design. It's what creates the unique urge to get behind the wheel that can only come from a Mazda.

## MAZDA TAKUMI: SUPERIOR CRAFTSMANSHIP

These are the artisans and craftsmen who hone their skills for years, even decades, to achieve mastery. From their first sketch to the final stitch, their passion, patience and dedication are poured into every vehicle. The Takumi master clay modelers are so highly skilled, they instinctually carve the shape of the vehicle from a block of clay — sometimes with their eyes closed—ensuring every curve is pleasing to not only the eyes, but to the touch as well. Exhaustive efforts are made to perfect the outcome of their design. Leaving you with their very best. From designer to driver, this connection ultimately creates an enriching emotional bond between you and your Mazda.

## A BEAUTIFUL SPACE

Using the Japanese concept of 'Ma' – the beauty of space between objects – our Kodo design language also informs the interior space. The human-centric design combines a snug, focused driver's cockpit area with a clean, airy and open cabin space for passengers, that enhances communication between all cabin occupants. Crafted with premium materials, it too achieves a flowing elegance and beauty, together with the bold, can-do attitude of an SUV.

## PURE DRIVING PLEASURE

The new-generation Skyactiv-Vehicle Architecture harnesses human's inherent balance ability, so that the car feels like an extension of your body. Together with the latest Skyactiv diesel and petrol engines, it delivers intuitive control for a uniquely dynamic and responsive drive. And, all Skyactiv petrol engines are equipped with Mazda's new Mazda M Hybrid system, with electric drive technology to improve environmental performance and driveability.

## ALL-NEW CX-30

### ENGINES

#### Skyactiv G

Gasoline engine with the new Mazda M Hybrid Technology

The newly developed Skyactiv G engine comes with the new Mazda M Hybrid System and the Cylinder Deactivation systems, ensuring the perfect balance between efficiency and dynamic driving. Skyactiv G is both available with automatic and manual gearshift.

#### Skyactiv D

The Skyactiv Diesel engine is brilliantly built to ensure high levels of driving dynamics and enhance the fun to drive feeling. The extraordinary compression ratio is completed by Skyactiv D's excellent efficiency. Skyactiv D is both available with automatic and manual gearshift.

#### Skyactiv X

Ground-breaking new technology in which the benefits of a spark-ignition gasoline engine have been combined with those of a compression-ignition diesel engine. Skyactiv X comes with the new Mazda M Hybrid System. An engine that's both fuel efficient and powerful, providing drivers with responsive acceleration and enhanced drivability, all with lower CO<sub>2</sub> emissions.

### SPECIFICATION HIGHLIGHTS

---

#### GS

16" Alloy Wheels

LED Headlights

Electrical, Auto Foldable & Heated Mirrors

8.8" TFT Colour Centre Display
