

MAZDA MX-5

MAZDA MX-5

We explore cities and winding country roads.
Corners hugged and throttles revved.
Top down, even on cold winter days.
Stargazing, defying the wind.
I am the embodiment of Jinba Ittai.
You, the heart behind the wheel.
We were always meant to connect,
like a horse and rider,
car and driver as one.
Together, we are stronger.
We have a bond that words alone cannot describe.
We never drive alone.

We drive together.

HIROSHIMA SPIRIT

Mazda shares a special history and spirit with Hiroshima, Japan. As the birthplace of Mazda, Hiroshima constantly inspires us to rise above any challenge, pushing us to achieve more than anyone could have imagined. We have built a global company from the ground up. We have developed innovations that others deemed impossible, from the rotary engine to Skyactiv Technology and beyond. Most of all, we have never strayed from our belief in the power of human potential. Giving all of ourselves, using our hands to craft and create things that matter, that have soul, that transfer our energy to you. To heighten your state of being.

The Japanese Kodoki bowl is created by repeated hammering on a copper sheet over 100.000 times. The spirit and commitment of the craftsmen is reflected in its sublime beauty. Its aesthetic appeal comes through in the thousands of facets, each a fingerprint of the craftsmen's energy.

KODO: SOUL OF MOTION

Our design philosophy is simple, yet highly challenging to accomplish: Capture energy in motion, even at a standstill. With curves and angles so striking, they command your attention through a mere glance. Exciting you by the anticipation of what's to come. Eliciting this kind of instant emotional response requires a human touch. Created for humans by humans. Hands on clay, shaping form with warmth and precision. Eliminating all that is unnecessary, leaving only what is beautiful. Transferring the energy of the maker into every nuance. We call this Kodo: "Soul of Motion" design. A dynamic sense of motion that urges you to get behind the wheel and experience the unique energy that can only come from a Mazda.

MAZDA MX-5

Mazda MX-5 is the perfect embodiment of what we call "art in motion". A car designed to take your breath away even before you get to drive it and ready to make an impression anywhere you take it – no exception. With beautiful proportions, flowing lines and dramatic contours, the Kodo: Soul of Motion design captivates your senses, while the upgraded luxurious interior and excellent car responsiveness heighten your senses and activate the feeling of togetherness we call Jinba Ittai.

MAZDA TAKUMI: SUPERIOR CRAFTSMANSHIP

These are the artisans and craftsmen who sharpen their skills for years, even decades, to achieve mastery. Their passion, patience and dedication to their craft is poured into every Mazda through the human touch. An emotional impression is made that no computer or equation can produce. Every detail inside the Mazda MX-5 is a testament to the Takumi's proficiency. This transference of energy creates an environment that inspires and a feeling that lasts even after your drive is over. From designer to driver, this connection ultimately creates an enriching, emotional bond between you and your Mazda.

MAZDA MX-5 RF

Welcome to a different kind of sports car. A Mazda MX-5 with a fully-electric hardtop roof, impressive Kodo designed exterior available in new colours that match its luxurious and upgraded cabin. With its low stance, rear wheel drive and Skyactiv Technology, the Mazda MX-5 RF drives as if part of you. Built to deliver excellent fuel economy, low emissions and advanced in-car connectivity, all that is left for you is to enjoy driving in its purest form.

CONNECTING CAR AND DRIVER

Every Mazda aspires to the same single goal—oneness between the vehicle and its driver. When you experience this seamless connection, your senses become heightened. You engage with the moment and leave all distractions behind. You feel energized. Rejuvenated. Better than when you first stepped in the car—a feeling that lasts long after the drive. From the meticulous consideration of our design to how our cars effortlessly respond to even your slightest direction, each detail in every Mazda offers you a pure driving experience.

EFFORTLESS CONNECTIVITY

Eliminating distractions is a key consideration in our approach to design. While keeping you focused on the road, the Mazda MX-5 provides plenty of intuitive interactivity features. Every element is situated within reach to minimize interference. And now, the Mazda Connect infotainment system has been enhanced with available Apple CarPlay integration for your iPhone and Android Auto integration – all easily controlled with the 7" colour touch-screen. Communication between you and your vehicle becomes second nature—by design.

TO HEIGHTEN YOUR SENSES, WE CREATED A FEW OF OUR OWN.

Avoiding an accident in the first place is always the safest route. With the available i-Activsense suite of safety features, sophisticated safety innovations alert you to hazards to help you avoid collisions—or lessen their impact. Features such as the available Smart City Brake Support or Lane Departure Warning system help improve your awareness and give you added comfort on the road. When needed, select i-Activsense innovations will even perform automatic braking. More confident driving, so you can feel focused and engaged with every drive you take.

EACH ROAD IS A SOUNDTRACK

We built the Mazda MX-5 as a piece of art on wheels. To complete your driving experience, we designed nine premium BOSE® speakers (Roadster GT & RF GT) which allow you to play your music with the power of a live performance with superb sound quality. Two speakers are mounted in each headrest so the sound quality remains high even with the top down on the open road. It's easier than ever to make each drive a memorable experience.

THE ART OF SEDUCTION

The colour on the Mazda MX-5 is one of the first things that will catch your attention. Its delicate beauty and strong character are endorsed by the craft of Takumi-Nuri, Mazda's high-quality painting technology, which makes the Kodo design come alive and amplifies the beauty of every line. Takumi-Nuri balances depth and glossiness to give the impression of a hand-painted concept car. It enables the exceptional vividness and depth achieved in the signature Soul Red Crystal and Polymetal Grey premium colours.
