

OUTLANDER PHEV

**MITSUBISHI
MOTORS**
Drive your Ambition

MORE CAPABLE THAN EVER BEFORE.

Experience driving pleasure at a whole new level with the Plug-in Hybrid EV SUV. Motors at each axle and an efficiently powerful petrol engine work together to optimise performance for driving needs. Enjoy new adventures as well as the daily commute with the new OUTLANDER PHEV's responsive control and quiet comfort.

Experience the evolution of the PHEV through re-engineered S-AWC technology. An upgraded Twin Motor and S-AWC deliver upgraded power and performance that add four-wheel fun to any situation. The new OUTLANDER PHEV puts another angle on electric, so you drive like a pro.

ELECTRIC & SUV

SPACIOUS COMFORT AND NEW REFINEMENT

Enter an oasis of comfort and refinement where driving pleasure is enhanced by generous legroom, luxurious amenities and a supremely quiet ride. Front seats provide body-hugging support around corners. All seats are meticulously finished with high-quality material, and the rear seatbacks can be folded to flexibly meet your changing luggage needs.

INSTYLE / Black leather with diamond quilting interior

Image shown for illustrative purposes only. Equipment may vary depending on market.

INNOVATION WITH A PERFORMANCE EDGE

Dramatic refinement has come to the innovative Plug-in Hybrid EV system, which now features a higher-output rear motor, a more fuel-efficient engine and more sophisticated power management based on unrivaled experience for supreme silence, smoothness and torque.

1. Twin motor 4WD and S-AWC

Separately mounted motors at the front and rear axles deliver incredibly responsive 4WD performance with S-AWC ensuring excellent driving stability and intuitive, linear handling.

2. New 2.4-litre engine

The supremely efficient Atkinson-cycle engine with long expansion stroke provides high fuel economy and low CO₂ emissions.

3. Generator

The high-performance generator transforms engine power into electricity to recharge the drive battery and assist the motors when needed.

4. Front Motor PDU & Rear EMCU

These intelligent control units contribute to heightened energy efficiency and optimal motor control with instant maximum torque that outperforms a 3.0-litre petrol engine.

5. Drive battery

The large-capacity 13.8kWh battery is stored under the floor to maximise interior space and lower the centre of gravity for improved safety and handling. Stored electricity can also be used to power external appliances.

Automatically selected drive modes

ELECTRIC DRIVING

EV Drive Mode: Electric power only

The motors power the vehicle using electricity from the battery, resulting in zero fuel consumption and zero CO₂ emissions. This drive mode is quiet, clean and powerful. Maximum speed is 135 km/h.

HYBRID DRIVING

Series Hybrid Mode: Electric power + engine assistance

The motors power the vehicle using engine-generated electricity. The engine generates electricity when the battery level is low and to increase power when accelerating rapidly or climbing hills.

Parallel Hybrid Mode: Engine power + motor assistance

The engine powers the vehicle (at high speeds, etc. when engine efficiency is high) with assistance from the motors when extra power is required.

MORE CONTROL WHILE YOU DRIVE.

Your wish is the OUTLANDER PHEV's command. Twin Motor 4WD teams with S-AWC to deliver torque and traction to each wheel. You'll feel like the master of the road. The new higher-output rear motor delivers more responsive acceleration, more stability and better control—especially in the new SPORT and SNOW modes.

S-AWC (SUPER ALL WHEEL CONTROL)

This integrated control system, only available from Mitsubishi Motors, delivers incredible power and control. By optimally managing AYC (Active Yaw Control), ABS (Anti-lock braking system) and Active Stability Control [ASC] with Traction Control [TCL], it brings out the full potential of Twin Motor 4WD without compromising safety, comfort or fuel efficiency. A new Drive Mode Switch lets you select NORMAL mode for regular driving conditions, SNOW Mode for easier starts and more secure cornering on snow-covered roads, or LOCK Mode to simulate locking of a centre differential and optimally distribute torque to all four wheels for improved traction and stability. A separate SPORT Mode Switch lets you activate the SPORT Mode in any drive mode for quicker response on winding roads.

SPORT Mode
(dry winding roads)

NORMAL Mode
(dry paved roads)

SNOW Mode
(snow-covered roads)

LOCK Mode
(rough dirt and gravel roads)

INSTYLE / Titanium Grey Metallic [U17]

STRUCTURAL ADHESIVES

Structural adhesive bonding on the door and tailgate openings increases coupling rigidity between body panels for improved steering stability.

REFINED SHOCK ABSORBERS

New larger diameter rear shock absorbers and newly tuned front struts help ensure ideal damping at all speeds.

TOMORROW'S EFFICIENCY TODAY

The innovative Plug-in Hybrid EV system is remarkably eco efficient. Enjoy zero fuel consumption and zero CO₂ emissions during all-electric driving – as well as an incredibly quiet ride. Or enter a hybrid mode to travel even greater distances with low emissions and high fuel efficiency. You can even generate electricity as you drive to enjoy vast stretches of wilderness with total confidence.

INFORMATIVE POWER METER

What is the status of the engine? The motor? The power meter indicates energy usage, regenerative power, engine power (kW), EV output and more for easy confirmation.

CHARGE AND SAVE

Control over battery usage is at your fingertip command using the integrated SAVE CHRG button. Select SAVE before EV driving to maintain the battery level. Or choose CHRG to charge the battery via engine while driving.

EV Switch

Press the EV switch to enter the EV Priority Mode and help prevent the engine from starting*. It allows you to manually select all-electric driving via Twin Motor 4WD for zero fuel consumption and a quiet ride without engine noise.

* Please see the owner's manual for details

REGENERATIVE BRAKING LEVEL SELECTOR (PADDLE TYPE)

Located on the steering wheel, the convenient regenerative braking level selector lets you easily adjust regenerative braking strength to any of six settings*.

* Except when Adaptive Cruise Control [ACC] is active.

ECO Score

Indicates the eco-friendliness of your driving. The more green leaves, the better.

ECO Mode Control

Press for more energy-efficient use of the motors, engine and air conditioning.

INSTYLE / Silky White Pearl [W13]

SPECIAL PHEV DISPLAY FUNCTIONS

The Multi-information Display shows various PHEV display functions including driving range indicator, EV Drive ratio indicator and energy flow indicator.

Driving range indicator

EV Drive ratio indicator

Energy flow indicator

ENERGY MANAGEMENT

Efficient energy management allows concurrent use of various power features – including the air conditioner and audio system – even while charging the battery. A screen also displays the current energy flow, expected charging time and more to keep you informed.

EASY CHARGING AT HOME AND WHILE TRAVELLING

Simply connect the OUTLANDER PHEV with a power outlet at home to charge the drive battery. You can charge while sleeping in around five and a half hours* with the onboard charger and charging cable. Or use the quick charger to charge in as little as 25 minutes (up to 80% capacity) at commercial charging facilities. Charging status is conveniently displayed on the instrument panel.

* With 230V/10A electric power supply.
Seven hours with 230V/8A electric power supply.

Regular charging

Conveniently charge at home.

Quick charging

When travelling, use the quick charger to save time.

TECHNOLOGY FOR ALL AROUND SAFETY

Advanced safety technology supports safer, more confident driving – on the road and in parking lots, day and night. From intelligent sensors that track your surroundings and warn you of danger to active driving assistance and solid passive protection, the OUTLANDER PHEV delivers all around high levels of safety.

FORWARD COLLISION MITIGATION SYSTEM [FCM]

Helps prevent a frontal collision or reduce damage if the collision becomes unavoidable. Responds to vehicles and pedestrians via camera and laser radar.

Danger of collision

Warning + braking assistance

High danger of collision

Warning + auto braking

Extremely high danger of collision

Warning + strong auto braking

ADAPTIVE CRUISE CONTROL SYSTEM [ACC]

Maintains a selected distance between your vehicle and the car ahead via radar for greater safety and peace of mind. It reduces driver stress especially during traffic jams on highways.

ACC indication on multi-information display

No vehicle in front

Your selected speed is maintained even if you remove your foot from the accelerator pedal.

Vehicle in front

Your selected distance between vehicles is maintained.

Vehicle in front (slowing/stopping)

When the vehicle in front slows or stops, ACC slows or stops your vehicle.

LANE DEPARTURE WARNING [LDW]

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

LDW indication on multi-information display

AUTOMATIC HIGH-BEAM

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

High-beam

Low-beam

FCM: The detection and control capabilities of Forward Collision Mitigation [FCM] are supplemental only and do not prevent collisions in every situation. Please drive safely and do not rely solely on this system while driving. FCM operates when a vehicle is in front of your vehicle. FCM is also designed to detect pedestrians, but may not detect them or be activated in some situations. Auto braking is activated for a car ahead when your vehicle is travelling at a speed of approx. 5km/h to 80km/h and for a pedestrian ahead at approx. 5km/h to 65km/h. Since FCM has no function to maintain braking, the brake is released approximately 2 seconds after stopping. To prevent the vehicle from rolling thereafter, the driver may have to hold the brake pedal down. In some cases, FCM may not function if the driver takes actions for accident avoidance through steering or acceleration operation. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

ACC: The detection and control capabilities of ACC are supplemental only. Please drive safely and do not rely solely on this system while driving. ACC may not be activated in some situations. This system may not correctly detect the actual situation depending on the type of vehicle in front and its conditions, the weather conditions, and the road conditions. Additionally, the system may be unable to decelerate sufficiently if the vehicle in front applies the brakes suddenly or another vehicle cuts into your path, so your vehicle approaches the front vehicle. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

LDW: Lane Departure Warning is not designed to lessen risks associated with not looking ahead carefully (attention drawn to something on the side, absentmindedness, etc.) or poor visibility caused by bad weather, etc. It is designed to detect the lane at a speed of approx. 65km/h or more. Keep steering your vehicle correctly and drive safely. The system may not be able to detect the lane correctly in some conditions. Please see the owner's manual for additional information.

AHB: This system activates at a speed of approx. 40km/h or more and deactivates at lower speeds. Please see the owner's manual for additional information.

BLIND SPOT WARNING [BSW]

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. An indicator appears in the door mirror when BSW is active and the turn signals are off. When a vehicle is detected while the turn signal is on, an indicator blinks in the corresponding door mirror and a buzzer sounds.

REAR CROSS TRAFFIC ALERT [RCTA]

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detect an approaching vehicle nearby while reverse gear is engaged, a warning message appears in the multi-information display, a buzzer sounds and an indicator blinks in both door mirrors.

MULTI AROUND MONITOR

The views from cameras mounted on the front, rear and sides of the vehicle (including a bird's-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

Rear view + Bird's-eye view

ULTRASONIC MISACCELERATION MITIGATION SYSTEM [UMS]

To help prevent collisions while parking, a buzzer sounds and a warning displays if front or rear sensors detect a nearby obstacle. Motor output is also controlled if you suddenly accelerate by accident.

Motor output control activates:

- When driving at very low speeds (not in N or P position)
- When obstacle/vehicle is within a short distance
- When accelerator pedal is pushed hard or abruptly
- When driver is not turning to avoid obstacle/vehicle

RISE BODY

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

BSW: The detection and control capabilities of Blind Spot Warning [BSW] are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving. Blind Spot Warning may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

RCTA: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving. The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

UMS: The detection and control capabilities of Ultrasonic misacceleration Mitigation System [UMS] are supplemental only and do not prevent misacceleration in every situation. Please drive safely and do not rely solely on this system while driving. To prevent the motor output control provided by UMS from causing an impediment during normal driving in rough-road driving conditions, the system automatically de-activates and indicates UMS OFF in the meter cluster when the FCM function is OFF or the ASC function is OFF. No function completely stops the vehicle via the automatic braking. The vehicle may creep forward or backward even when motor output is regulated. The sensing system may not work for netlike and sharp-edged obstructions that do not sufficiently reflect ultrasonic sound. UMS does not include a function which keeps the vehicle stationary. The driver is responsible for stopping the vehicle by pressing the brake pedal as required by the driving conditions. The ultrasonic sensor wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

ELECTRIC HEATER

The electric heater uses the electric water pump to circulate hot water and warm the cabin even if the engine isn't running, such as during EV driving. So you can run it early in the morning or late at night without bothering the neighbours. In extremely cold weather, the electric heater can also be used to supplement heat generated by the engine.

MITSUBISHI REMOTE CONTROL

For convenience, use your smartphone to remotely control the charging timer, reschedule charging for late at night when electricity fees are low, monitor the remaining charge time and more. The latest Mitsubishi Remote Control app enables immediate or timer activation of cabin cooling or heating.

Note: The vehicle and smartphone must be connected by wireless LAN. Some smartphones may not be supported. The cooling function can only be operated remotely in models without the electric heater. Pre-heating requires the electric heater.

Timed charging

Timed air conditioning

Vehicle information/
Vehicle operation

OUTLANDER PHEV II

INSTYLE / Sterling Silver Metallic [U25]
(Courtesy of Yamaha Motor Co., Ltd.)

CHARGING CABLE STORAGE

A storage space beneath the rear luggage area floor is ideal for conveniently storing the charging cable.

The trailer hitch, bracket and wiring harness shown are not factory options, but are separately available. The Ultrasonic misacceleration Mitigation System [UMS] may not operate because the sensor cannot detect the vehicle in front or obstacle when towing. Set the Blind Spot Warning system [BSW] and Rear Cross Traffic Alert [RCTA] to OFF when towing. Please consult your local Mitsubishi Motors dealer/distributor for details about towing.

FEATURE HIGHLIGHTS

LED HEADLAMPS WITH LED DAYTIME RUNNING LAMPS AND LED FRONT FOG LAMPS

The stylish new headlamps feature LED lighting for both the high and low beams. The LED fog lamps illuminate the road ahead with white light.

ANTI-TRAPPING ELECTRIC SUNROOF

A sunroof with tilt, sliding and anti-trapping features lets you bring in the sunlight and fresh air.

ROOF RAILS

Practically designed roof rails handsomely match the sleek roof.

ELECTRIC TAILGATE

The tailgate can be opened and closed automatically from a switch located near the driver's seat.

REAR SPOILER

The rear spoiler has been optimised to further improve aerodynamic performance.

KEYLESS OPERATION SYSTEM [KOS]

When carrying the key, you can press a button on the outside of the front doors or tailgate to lock or unlock all the doors and tailgate, and press the power switch in the cockpit to start the Plug-in Hybrid EV System.

ELECTRIC PARKING BRAKE WITH BRAKE AUTO HOLD

The parking brake on the floor console is easy to operate via stylish switch. Simply pull the switch up to apply the parking brake or push the switch down to release it. While stopping at a stoplight, Brake Auto Hold keeps the vehicle stationary even if you release your foot from the brake pedal. Pressing the accelerator releases the brakes.

HEATED STEERING WHEEL

The heated steering wheel supports more comfortable operation in chilly weather. Its power switch is conveniently located on the centre panel.

REAR VENTS

Adjustable vents are provided in the rear console to keep rear passengers comfortable.

SMARTPHONE LINK DISPLAY AUDIO

CONNECT YOUR SMARTPHONE AND UNLOCK NEW EXPERIENCES

7 inch touch screen

DAB / FM / AM

Hands-free Phone / Music Via Bluetooth®

iPod®

USB port *2

Multi Around Monitor

Fuel Consumption Indicator

Eco Information

Go where you want, when you want. Discover new places and new music. Smartphone-link Display Audio (SDA) helps you find such moments. You can operate map settings, music playback, and calls all with voice actions for a more enjoyable and safer drive.

Android Auto™

For more information: www.android.com/auto/

By just connecting your Android™ Smartphone to SDA, you can operate your favorite apps through voice commands, letting you focus on the road for safer driving.

MAPS

No more needing to update your GPS maps. Using Google Maps' real time traffic conditions and constantly updated maps, you'll never get lost again.

MUSIC

Discover new songs and make your own playlist out of the 40 million songs in the Google Play Music. Prepping for a drive has never been so fun!

PHONE

You can make calls and check voicemail hands-free.

MESSAGES

Have your messages read to you, or write and send your own, all through voice commands.

VOICE CONTROL

Hold down the steering wheel button or say "OK Google." The Google Assistant is your own personal Google, always ready to help.

APPS

Easily access your favorite apps like WhatsApp, Spotify, and more. The list of compatible apps continues to grow.

Apple CarPlay

For more information: www.apple.com/ios/carplay/

Connecting your iPhone to SDA lets you easily operate maps, music, calls, messages and more through Siri. SDA helps you intuitively do what you want on your iPhone, even on the road.

MAPS

Use Apple Maps to set your destination. You can also use it to search for things like nearby restaurants and parking, or to estimate time needed for side trips.

MUSIC

Tell Siri the name of artist or song and listen to the music you love from Apple Music, or your other audio apps.

PHONE

Just ask Siri to make calls and check voicemail.

Siri

Just hold down the steering wheel button to call Siri up. "Play Music," "Where's the closest gas station?"...Siri's the perfect partner for a drive.

MESSAGES

Leave it to Siri to read out, reply and send your messages so you can focus on driving.

APPS

You can use a number of audio, messaging, and voice calling apps with Apple CarPlay. You can also rearrange the icons using the setting on your iPhone.

Please refer to page 29 for more details.

THE SPIRITED NEW S EDITION

Satisfy your passion for driving pleasure with the OUTLANDER PHEV S Edition. A special edition black leather interior with diamond-stitched seats conveys elite sophistication. Bilstein shock absorbers deliver more linear handling. And aluminium pedals enhance refinement and control. It's the privileged choice of demanding drivers.

ALUMINIUM PEDALS

BILSTEIN SHOCK ABSORBERS

Highly responsive Bilstein shock absorbers dramatically improve handling and stability.

*** 453 litres for model equipped with Rockford Fosgate® 710W premium sound system.

OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

PEACE OF MIND AS STANDARD

While our vehicles enjoy a strong reputation for reliability Mitsubishi Motors Ireland proves this by providing a confident 8 Year / 150,000km (whichever comes first) warranty as standard on all passenger vehicles.

If you sell your Mitsubishi vehicle before the warranty expires, you can even transfer it to the new owner making it even more attractive to buyers and helping you better maintain the car's value.

Warranty terms and conditions apply - see mitsubishi-motors.ie.

MAP – MITSUBISHI ASSISTANCE PACKAGE

In order to demonstrate our commitment to your mobility and the faith we have in the reliability of our vehicles, you will receive a free MAP card valid for 5 years with your new Mitsubishi. With MAP your mobility is guaranteed in more than 30 countries throughout Europe, should you ever need assistance in the event of breakdown, accident, theft or vandalism.

Wherever you are, 24 hours a day, 7 days a week – just call the number on your card and the problem will be fixed on the spot. If it's more serious, your car will be taken to the nearest Mitsubishi dealer and you'll be offered services such as a hotel, continuation of journey, a replacement car and vehicle repatriation.

Around 2,500 Mitsubishi Motors Authorised Service Points in Europe are committed to helping you wherever you are.

FREE ANNUAL VEHICLE HEALTH CHECK

Your Mitsubishi Motors Ireland warranty is strictly subject to the presentation of your vehicle to an authorised Mitsubishi Motors dealer in the Republic of Ireland at least once every year, or every 15,000 Kms / 20,000 Kms, whichever comes first. The dealer must be given the opportunity to complete the mandatory Mitsubishi Motors vehicle health check when your vehicle is presented. The free annual vehicle health check can be completed independently of a service or it can be performed in conjunction with a scheduled service. Free Vehicle Health Check terms and conditions apply.

MITSUBISHI MOTORS GENUINE PARTS

Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. It is recommended to use Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorised Service Points. All Mitsubishi Motors Genuine Parts have a 2 year guarantee. Terms & conditions apply.
