

SPACE STAR

NEW GENUINE COMPACT

Looking for a fresh boost in your life? Something sharp, dependable and confident, yet never short on fun? And always leading your style? Then, this compact's for you. An advanced dynamic look and feel, class-leading driver-assisted safety, and intelligent features are combined with good fuel economy and genuine quality. You'll push the boundaries of your world in a whole new way.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Sand yellow (Y35) shown with optional equipment

1.2-litre MIVEC INTENSE

YOUR ALL-IN-ONE SPACE

Discover an advanced, friendly, spacious cabin that's equally impressive as its exterior. Chic fabric trim and high-quality materials for the soft yet supportive seats are complimented with hi-tech meters and Bluetooth voice control. You get style and comfort all in one space, bringing more to your drive...and your life.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

1.2-litre MIVEC INTENSE - Synthetic leather and fabric seats (black)

ADVANCED SAFETY

RISE body

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision

SRS airbags

Front, side and curtain SRS airbags reduce collision impact from all directions, helping to curb injuries to the driver and passengers in the event of a collision.

Pretensioners

Pretensioners automatically tighten the front seatbelts in the event of a collision to help restrain the driver and front passenger.

Active Stability Control [ASC]

If wheels lose their grip on slippery surfaces or while turning, ASC automatically adjusts engine output and applies braking force at the appropriate wheels to help maintain control and prevent skidding.

With Hill Start Assist

Without Hill Start Assist

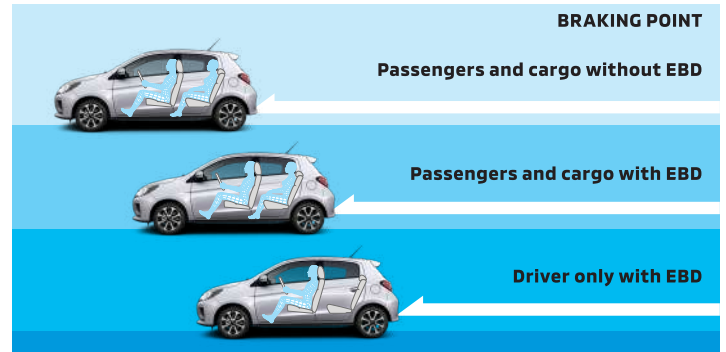

Hill Start Assist [HSA]

HSA makes it easy to start off on a steep uphill slope by preventing the vehicle from rolling backward. When a gradient is detected, it automatically maintains the braking force until the accelerator is applied.

Note:
ASC: The control capabilities of ASC are supplemental only. Please drive safely and never rely solely on these functions while driving. Be sure to use the same specified type and size of tyres on all 4 wheels. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner's manual for additional information.

HSA: Hill Start Assist [HSA] is not a substitute for safe driving. Never rely solely on this function while driving on steep roads. Your vehicle may move backwards if the brake pedal is heavily loaded, or if road is very steep or slippery. This function is not designed to keep the vehicle stopped in place on uphill slopes for more than 2 seconds. Do not rely on this function to maintain a stopped position as an alternative to depressing the brake pedal. Please see the owner's manual for additional information.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

4ABS + EBD

ABS prevents the wheels from locking up during emergency braking so you can maintain greater steering control, even on slippery roads. Electronic Brake-force Distribution (EBD) distributes braking force to all four wheels to enhance braking performance

Tyre Pressure Monitoring System [TPMS]

Experience peppy performance and good fuel efficiency which bring joy to every drive. Whether commuting to work, shopping in the city or travelling through the countryside, you'll enjoy sporty handling that is exceptionally stable, quick acceleration in response to your command, and agile manoeuvrability that makes parking and sharp turns a breeze.

EXCITE YOUR SENSES RESPONSIBLY

Experience peppy performance and good fuel efficiency which bring joy to every drive. Whether commuting to work, shopping in the city or travelling through the countryside, you'll enjoy sporty handling that is exceptionally stable, quick acceleration in response to your command, and agile manoeuvrability that makes parking and sharp turns a breeze.

The 1.2-litre MIVEC* power plant delivers an ample maximum output of 59 kW (80 PS) at 6,000 rpm and practical maximum torque of 106 N-m (10.8 kg-m) at 4,000 rpm.

* Mitsubishi Innovative Valve timing Electronic Control system

INVECS-III CVT

The INVECS-III* CVT wide-ratio transmission maintains optimal rpm for high performance and fuel economy. You'll enjoy smooth acceleration and deceleration, as well as efficiently selected gear ratios in all driving conditions. An illuminated indicator provides easy reading at a glance and the shift knob is leather-wrapped for your pleasure.

* Intelligent & Innovative Vehicle Electronic Control System III

Auto Stop & Go [AS&G]

Auto Stop & Go [AS&G] reduces fuel consumption and CO₂ emissions by automatically shutting off the engine when the vehicle is stationary, such as when waiting at traffic lights. The engine restarts immediately when you remove your foot from the brake pedal.

ECO mode indicator

This indicator illuminates whenever you operate the accelerator pedal in an ecofriendly way. It encourages you to develop good driving habits that lower fuel costs and contribute to a cleaner environment for everyone.

Smooth aerodynamic design

The streamlined body smoothly slips through the wind with a class-leading drag coefficient (Cd) of 0.27* that lowers wind noise and CO₂ emissions while raising fuel efficiency and high-speed stability. Aerodynamic features include an innovative double-tiered roof end, air dams and under-floor covers.

* According to internal test results

A minimum turning radius among the smallest in its class

The tight turning radius contributes to excellent handling and makes driving easy for anyone, at any age.

FEATURE HIGHLIGHTS

175/55R15 tyres + 15-inch alloy wheels

Front grille accents with red accent

Cruise control

Vehicle speed is automatically maintained without keeping your foot on the accelerator pedal, allowing more relaxed driving on extended journeys. Pressing the brake pedal disengages the system.

Air conditioning, manual with pollen filter

CD player with AUX terminal and unique type centre panel

Multifunction GPS Navigation (SMARTPHONE-LINK) [MGN]*

The MGN system is accessible via 6.5" WVGA (800 x 480) LCD and DVD deck mounted in the centre console. Through large ergonomic touch screen buttons, MGN offers a wide variety of smartphone connectivity solutions and navigation map data for countries throughout Europe.

Driver's seat adjustable armrest

The driver's seat for CVT models includes an adjustable armrest to enhance driving comfort and reduce strain on long drives. It can be adjusted horizontally for the ideal position.

Engine switch

Keyless operation key

Keyless Operation System [KOS]

When carrying the key, you can press a button on the outside of the driver's side door or tailgate to lock or unlock all the doors and tailgate, and press the engine switch in the cockpit to start the engine.

*Available only as an accessory

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.
