ALL-NEW PEUGEOT e-208

100% ELECTRIC WITHOUT COMPROMISE

LIVE THE POWER OF CHOICE

The all-new PEUGEOT 208 is not only available with a choice of petrol or diesel powertrains but is also available as an 100% electric vehicle.

The all-new PEUGEOT e-208 features the following key elements:

TECHNICAL

Electric 50 kWh 136hp powertrain

The all-new PEUGEOT e-208 offers a lively and stimulating drive thanks to its 100% electric powertrain. You benefit from immediate reactivity with 260Nm of torque from 0kph and enjoy a serene* driving experience with no vibration.

e-CMP platform

The new e-CMP platform has been developed to incorporate a high voltage battery whilst preserving space on board and boot volume. Particular attention was given to weight reduction and balance to make sure the driving experience in the all-new PEUGEOT 208 is as rewarding as possible.

Range 350km WLTP

Charging flexibility with 3 modes available:

Domestic (AC): 10A /3kW from a regular socket, full charge in 24 hours (accessory cable needed).

Fast (AC) 32A / 7kW from a Wall Box, full charge in 7.5 hours.

Rapid (DC) 100kW from a dedicated public terminal, 80% charged in 30 minutes.

USAGE

3 driving modes

In the all-new PEUGEOT e-208 you will be able to choose between 3 driving modes:

- Sport: priority given to performance (0-100kph in 8.1s)
- Normal: daily usage
- Eco: priority given to range

2 braking modes

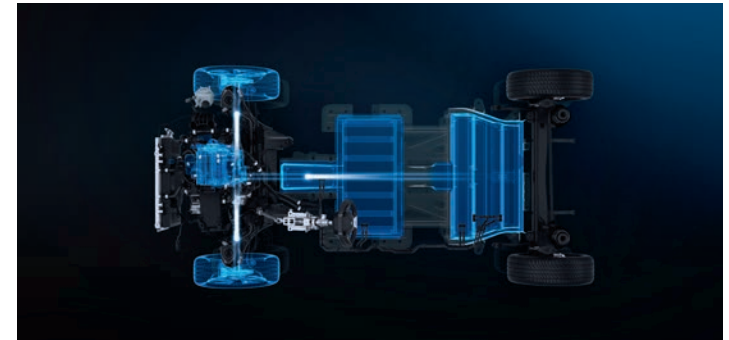

The all-new PEUGEOT e-208 also benefits from 2 braking modes that helps you make the best of your range:

- Moderate: sensation similar to an ICE engine
- Emphasised: deceleration controlled with accelerator pedal

Specific animations

The all-new PEUGEOT e-208 features specific technological animations and menus on the touchscreen so that you can access easily all the information needed.

*Take care when driving as other road users may not be accustomed to electric vehicles. All-new PEUGEOT e-208 is fitted with an acoustic vehicle alerting system.

MYPEUGEOT® APPLICATION

Control Your Vehicle Remotely

With the MyPeugeot App you can view the following anywhere and any time:

- The progress and status of the vehicle charge
- Your consumption statistics for every journey
- Eco-driving tips

You can also remotely control certain vehicle functions via the App such as:

- Activating, stopping and scheduling the battery charge
- The pre-programming of the heating or air conditioning within the vehicle

EXTERIOR STYLING

The all-new PEUGEOT e-208 comes with distinctive and exclusive touches

A body coloured chequered front grille with gloss black edge trim.

The Lion logo featuring a specific dichroic treatment which changes colour from different angles depending on the exterior lighting.

The C-pillar comes with a specific 'e' monogram badging as well as the name of the car at the rear.

The information contained in this specification sheet, is based on the data and images available at the time of publication. Some photography may feature left hand drive models. All images shown are for illustration purposes only. Photographic processes used may alter the depth and tone of the colours shown. As part of a policy on continuous specification improvement, Peugeot reserves the right to modify colours, trims, engine range, options and standard equipment at any time. This specification sheet is not a contractual document or offer of sale.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. WLTP replaces the previous NEDC test method. The included values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. You can discover more about the WLTP at peugeot.ie/brand-and-technology/wltp
