PEUGEOT 3008 SUV: STANDARD SPECIFICATION ACROSS THE RANGE

Never has an SUV gone so far...

The new PEUGEOT 3008, at a mere glance, exudes tremendous strength and character. It brings to market an accomplished SUV with a streamlined design, combining robustness and sheer elegance.

On board the new PEUGEOT 3008 SUV, passengers are immersed in a sensory and technological world that will guarantee an enhanced driving experience.

All new PEUGEOT 3008 SUV models, from level one Access models, come with the following equipment as standard:

Safety and Security

- ABS (Anti-lock Braking System) with REF (Electronic Braking Distribution) and AFU (Emergency Braking Assistance)
- Airbags
 - Adaptive driver and front passenger airbags (includes passenger airbag deactivation function)
 - Driver and front passenger side airbags
 - Front and rear curtain airbags
- Automatic door locking when moving off
- Automatic hazard light activation upon heavy brake application
- CDS (Dynamic Stability Control) and ASR (Electronic Anti-skid System)
- Child locking functionality on rear windows and doors
- DAA1 (Driver attention alert system)
- Electronic code immobiliser
- Exterior temperature indicator with ice warning
- Front optimised safety headrests and rear retractable headrests (x3), height-adjustable.
- Front three-point retractable seatbelts, height-adjustable, with pre-tensioners and force limiters
- Front ventilated disc brakes, rear disc brakes
- Gear Shift Indicator
- Headlights left on audible warning
- Isofix child seat fittings (x3) in the front passenger and outer rear seats
- Programmable cruise control and speed limiter
- Rear three-point retractable seatbelts (x3), with pre-tensioners and force limiters in the outer rear seats
- Seatbelt not fastened audible and visual alert for front seats
- Seatbelt unfastened on the move audible and visual alert for front and rear seats
- Speed limit recognition and recommendation
- Lane Departure Warning (LDW)
- Steel space saver spare wheel - **unavailable on HYBRID versions, Tyre mobility kit included**
- HYBRID versions come with 3.7kW monophasic on board charger and a Mode 2 Type 2 cable for wallbox charging

Interior Features

- Blue ambient lighting for connecting zone
- 'Brumeo' fabric trimmed door armrests
- Dashboard, front and rear door panels finish - carbon effect
- Fixing rings (x4) in load area
- Flocked glove box interior
- Gear lever - automatic in satin chrome
- Gear lever - manual in black (5 speed gearbox) or satin chrome (6 speed gearbox)
- Roof lining - light grey
- Satin chrome dashboard trim
- Satin chrome digital instrument panel and touch screen trim
- Satin chrome interior door handles

In-Car Entertainment

- Bluetooth telephone facility
- USB socket
- 6-speaker radio, MP3 compatible
- 12 V sockets (x3) (dashboard, rear cabin and load area)

Model shown is new PEUGEOT 3008 SUV GT line with optional pearlescent paint.

Peugeot 3008 SUV Hybrid

PEUGEOT 3008 SUV: STANDARD SPECIFICATION ACROSS THE RANGE

Comfort and Convenience

- Semi-automatic air conditioning with sensitive controls
- Central front armrest with butterfly-wing opening and illuminated chiller compartment
- Electric and heated door mirrors
- Electric parking brake (includes hill assist)
- Electric power steering with reach- and rake-adjustable steering column
- Front central console with two cup-holders
- Front interior light with reading spotlights (x2) and rear interior light with timer
- Front windscreen wiper with "Magic Wash" cleaning system
- Grab handles (x4), retractable with damping
- Heated rear windscreen with integrated antenna
- Illuminated glove box
- Map pockets on front seat backs
- Mechanical height-adjustable driver's seat + passenger seat
- Multifunction trip computer
- New Peugeot i-Cockpit®:
 - Configurable 12.3" head-up digital instrument panel
 - 8.0" capacitive touch-screen
 - Compact multi-function leather steering wheel
- One-touch electric front and rear windows with pinch protection
- Rear armrest with ski flap and two cup-holders
- Rear centre console ventilation system
- Rear coat hooks (x2)
- Rear windscreen wiper triggered automatically in reverse gear
- Remote central locking (two remotes) & deadlocks
- Two-position boot floor - **unavailable on HYBRID versions**
- 1/3 - 2/3 folding rear seat 2/3 folding rear seat ("Magic Flat" modularity with controls accessible from the boot. "Magic Flat" unavailable on HYBRID versions).

Exterior Features

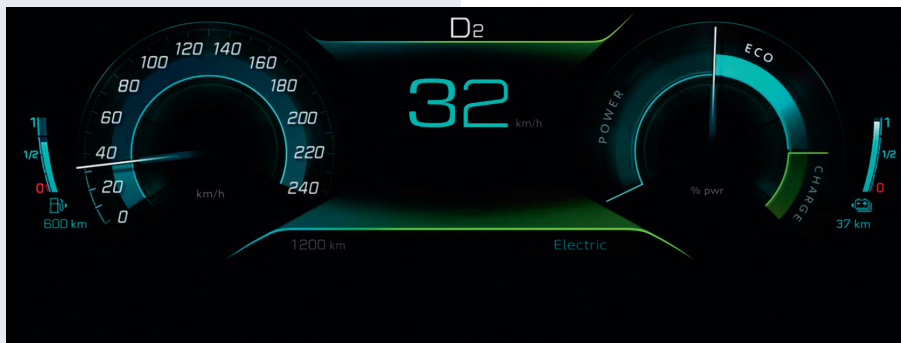

- 17" steel wheels with Napoleon wheel trims
- Body-colour exterior door handles
- Body-colour rear spoiler with stainless steel edging trim
- Body protectors (bottom of front and rear bumpers + wheel arches + protection at bottom of doors) in black
- Chrome rear bumper fascia
- Door mirror shells: body colour
- Front wing trim: black
- Gloss black B and C pillar and aerodynamic deflector trim
- Gloss black strip rear cluster connecting strip
- Gloss black windscreen trim
- Radiator grille: chrome edge trim and facets
- Roof - body colour
- Side window trim: black rubber
- Stainless steel roof arch trim
- Tinted rear side & tailgate windows

Exterior Lighting and Visibility

- Halogen headlamps
- LED daytime running lights built into the headlamp unit
- LED side indicator lights integrated into door mirrors
- Rear LED PEUGEOT signature 'Claw Effect' lights (with daylight function)

Model shown is new PEUGEOT 3008 SUV Allure with optional metallic paint, black diamond roof & panoramic opening glass roof.

ACTIVE: With the perfect balance of character and strength, the Active trim offers even more comfort and convenience.

Standard Active Specification (Access +)

Safety and Security

- Safety pack
 - V-AEBS (Automatic Emergency Braking System)
 - Front Collision Warning (FCW)

Comfort and Convenience

- Electric heated & folding door mirrors with exterior courtesy LED lighting
- Automatic dual zone climate control
- LED interior lighting (roof, storage spaces, load area)
- Parking sensors - rear
- 180° rear reversing camera (VisioPark 1)
- Reading spotlights (x2), in rear
- Dark tinted rear side and tailgate windows

Interior Features

- Blue ambient lighting to head-up instrument panel
- Leather steering wheel
- Satin chrome 'Scorpion's Tail' and toggle switch trim
- Seating
 - Mistral 'Meco' cloth seat trim

In Car Entertainment

- Mirrorscreen:
 - Mirrorlink®
 - Apple CarPlay®

Exterior Features

- Chrome front fog light trim
- 17" 'Chicago' alloy wheels
- Front wing trim: black with chrome detail
- Aluminium roof bars

Exterior Lighting and Visibility

- Halogen fog lamps
- Visibility pack
 - Automatic headlamps
 - Automatic windscreen wipers
 - Electrochrome rear view mirror (auto dimming)
 - 'Follow me home' headlamps

ALLURE: With added style and specification, the Allure trim offers you the ultimate in luxury.

Standard Allure Specification (Active +)

Safety and Security

- Safety plus pack
 - ABSD (Active Blind Spot Detection)
 - LKA (Active Lane Keeping Assistance)
 - DAA3 (Advanced Driver Attention Alert)
 - PEUGEOT Smartbeam Assistance
 - AEBS3 - **HYBRID versions ONLY**

Comfort and Convenience

- Illuminated vanity mirrors
- Parking sensors - front and rear
- Power folding door mirrors with blind spot detection indicator
- PEUGEOT Open and Go (keyless entry and push button start) - **HYBRID versions ONLY**

Interior Features

- Blue ambient lighting to front door panels, storage, footwells and cupholders
- Dashboard, front and rear door panel finish: 'Brumeo' fabric
- Satin chrome front door panel recess trim
- Mistral full-grain leather steering wheel with stitch detail

Seating

- Driver seat lumbar adjustment
- Foldable front passenger seat with picnic table
- Mistral 'Piedimonte' leather effect and cloth seat trim

Exterior Features

- Front bumper scuff plate in Lion Grey
- 18" 'Detroit' diamond cut alloy wheels
- 'HYBRID' emblems on front wings and tailgate - **HYBRID versions ONLY**

In Car Entertainment

- Smartphone charging plate
- 3D Navigation
 - Voice Recognition, (radio, navigation & telephony features) - **HYBRID versions ONLY**

PEUGEOT 3008 SUV: STANDARD EQUIPMENT BY VERSION - GT LINE & GT

Model shown for illustration purposes only. Image shows GT model fitted with optional 19" Boston alloy wheels.

GT LINE: The best of all worlds, sports styling combined with outstanding levels of efficiency and specification.

GT: The ultimate in SUV luxury, any journey no matter the distance will leave you wanting for nothing.

Standard GT Line Specification (Allure +)

Safety and Security

- Self levelling headlamps

Comfort and Convenience

- Peugeot Open & Go keyless entry & push button start (HYBRID versions only)
- Front & rear parking sensors (visioPark 2)
 - Reverse camera & front camera with 360° vision with Park Assist (Parallel & Row)
- Driver Sport Pack, sports mode includes
 - The tint of digital cluster in red background with notification 'Sport'
 - Sharpened throttle response
 - Gear shift response
 - Steering weighting
 - Amplification of engine sound (through speaker)

Interior Features

- Aikinite contrast stitching to armrest, gear lever gaiter and dashboard fascia
- Flocked front door pocket interior
- Mistral floor mats with Aikinite contrast stitching
- Mistral full grain perforated leather steering wheel with Aikinite stitch detail and satin chrome 'GT Line' emblem
- Roof lining - Tramontane black
- Onyx digital instrument panel

Seating

- Mistral 'Imila' leather effect and cloth seat trim with Aikinite double stitch detail
- Driver & front passenger seat heating

In Car Entertainment

- 220V socket

Exterior Features

- Door mirror shells: Nera black
- 'GT Line' emblems in satin copper (front wings and tailgate) (excluding HYBRID versions)
- 'HYBRID' emblems on front wings and tailgate - HYBRID versions only
- Radiator grille: chequered with black 'PEUGEOT' lettering
- Roof: 'Black Diamond'
- Side window trim: chrome
- Sports front bumper design
- Twin exhaust effect trim in chrome
- 18" 'Detroit' matt Haria 2-tone finish diamond cut alloy wheels

Exterior Lighting and Visibility

- Full LED headlamps
- LED foglamps (include static cornering function)
- LED sequential scrolling front indicators
- Door mirror mounted LED 'PEUGEOT Lion' approach lights
- Panoramic opening glass roof (with electric interior blind & blue ambient lighting)

Standard GT Specification (GT Line +)

Safety and Security

- Advanced Grip Control
 - ESP with ASR plus (5 grip modes) + Hill Assist Descent Control (HADC) - **excluding HYBRID versions**
 - Adaptive Cruise Control and Lane positioning assist - **HYBRID versions only**

Interior Features

- Dashboard, front and rear door panel finish: grey oak
- Gear lever - automatic in full grain leather and satin steel chrome
- Mistral full grain perforated leather steering wheel with Aikinite stitch detail and satin chrome 'GT' emblem
- Satin steel chrome 'Scorpion's Tail' and toggle switch trim

In-Car Entertainment

- 3D Navigation
 - Voice Recognition, (radio, navigation & telephony features)

Seating

- Driver seat multi-point massage function
- Driver seat 2 position memory function
- Driver seat 8-way electric adjustment (includes electric lumbar adjustment)
- Driver & front passenger seat adjustable cushion nose
- Nappa Mistral full grain leather seat trim with Aikinite double stitch detail

Exterior Features

- 'GT' emblems in satin copper (front wings & tailgate) - **excluding HYBRID versions**
- Wheel arch extensions
- 18" 'Los Angeles' shiny Haria grey diamond cut alloy wheels
- 'HYBRID' and 'HYBRID4' emblems on front wings and tailgate - **HYBRID versions only**
- 19" 'Washington' two-tone diamond cut alloy wheels - **HYBRID versions only**

Peugeot PureTech: The Multi Award Winner.....

For the fourth year running, PureTech technology has been awarded the hugely impressive accolade of 'International Engine of the Year' for the 1.0l -1.4l category.

The revolutionary PureTech engine from PSA is a revelation in terms of refinement, performance and efficiency. Without turbo lag, this three-cylinder gives optimum power and perfect torque at very low revs, with a harmonious noise throughout the whole range. Consumption remains very low.

PEUGEOT 3008 SUV: NEW PEUGEOT i-COCKPIT®

New PEUGEOT i-Cockpit®

Since launching in 2012, PEUGEOT i-Cockpit® has re-written the rule book for car interior architecture. The PEUGEOT i-Cockpit® philosophy centres around a driving environment that puts you in control, allowing a greater connection to the road. For new PEUGEOT 3008 SUV, the new PEUGEOT i-Cockpit® brings driving resolutely into the digital age.

The new PEUGEOT i-Cockpit®, comprises of the following key features:

Configurable 12.3" head-up digital instrument panel:

Available as standard across the new PEUGEOT 3008 SUV range, this 12.3" TFT 100% digital screen can be customised to suit the drivers needs. As the panel is positioned higher, it is closer to the road and is more within the drivers field of vision. This can increase safety when compared to a conventional setup where the dials sit within the wheel, further from the road.

The crisp and colourful graphics within the instrument panel can be adapted to give a variety of display modes including:

- **'Dials'** mode, a classic view to replicate the analogue setup of most modern cars.
- When fitted, the **'Navigation'** mode turns the dials on their sides to a 'roller' format, 3D navigation with instructions fill the centre of the display.
- **'Driving'** mode with 'roller' format dials and driver assistance information including Lane Keeping Assistance (LKA) and ACC Stop (when fitted).

In addition to the above a 'Personal' mode can also be configured to allow the driver to see the exact information they require, for optimum comfort.

Compact multi-function steering wheel:

At Peugeot we have quite literally reinvented the wheel. Compact dimensions coupled with a re-designed shape enhance every journey in new PEUGEOT 3008 SUV. Out on the road the compact dimensions increase the visibility of the cars instruments whilst in the corners it provides heightened responses and improved agility.

When it comes to round town or navigating car parks its compact dimensions make light work of wheel winding to manoeuvre into a space. In terms of finish Active models & above are trimmed with Mistral full-grain leather with stitch detail. Sports models benefit further from Aikinite stitching, perforation detail and a satin chrome model designation badge.

8.0" capacitive touch-screen:

With crystal clear graphics, the 8.0" capacitive touch-screen houses several key technological features on the new PEUGEOT 3008 SUV. Capacitive technology helps to give Smartphone levels of responsiveness whilst multi-touch technology brings greater levels of functionality. In-keeping with the PEUGEOT i-Cockpit® theme, the touch-screen is angled towards the driver.

For greater accessibility the touch-screen is accompanied by stylish satin chrome piano key toggle switches, these enable direct access to the wealth of functionality available.

Features accessed via the touch-screen include:

- Automatic dual zone climate control (Active versions & above)
- Mirrorscreen: (Apple CarPlay® and Mirrorlink®) (Active versions & above)
- 3D satellite navigation: GT versions

'Dials' Mode (Active / Allure models)

'Driving' Mode

'Navigation' Mode (GT model)

'Dials' Mode (GT Line / GT models)

New PEUGEOT i-Cockpit®

New PEUGEOT i-Cockpit® Sports Pack (Standard from GT Line and above)

New PEUGEOT i-Cockpit® Sports Pack awakens the senses in the following ways:

- The Driver Sport Pack sharpens throttle response, steering weighting and gear changes (automatic transmission only). Dynamic data is also displayed in the Configurable 12.3" head-up digital instrument panel.
- Touch: Choose the GT model & benefit from the ultimate in relaxation - enjoy a multipoint driver seat massage with five programmable modes to suit all tastes.

Driver Sport Pack (Linked to "Boost" Function)

Red "Dials" Theme (Linked to "Boost" Function)

Electric Impulse Automatic Gearbox Control Standard on automatic versions

Linked to the Efficient Automatic Transmission (EAT8) with Quickshift Technology. This stylish gearbox control with its ergonomic design complements the PEUGEOT i-Cockpit®. Trimmed with full-grain leather, satin chrome and piano black materials, this compact gearbox control even helps to free up space within the cabin.

Operation is intuitive and smooth, for the more exuberant driver a manual driving mode is also available, a simple press of the 'M' button located on the control gives full access to the steering column mounted paddles.

Steering Column Paddles & Electric Impulse Control

Compact Multi-Function Steering Wheel

8.0" Capacitive Touch-Screen

Piano Key Toggle Switches

PEUGEOT 3008 SUV: INNOVATIVE TECHNOLOGY

Automatic Emergency Braking System (V-AEBS): Standard from Active trim and above.

AEBS is an intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system is triggered if the driver does not react quickly enough, by activating the vehicle's brakes.

A multifunction camera located at the top of the windscreen is able to detect obstructions on the road. The system is able to detect vehicles that are moving in the same direction or are at a stop, together with pedestrians in the road.

Distance Alert System: (Standard from Active trim and above)

Working in conjunction with V-AEBS, the distance alert function warns the driver if the vehicle risks a collision with the vehicle in front or a pedestrian in the road. Two levels of warning are available. The first 'Amber' warning provides a visual alert to the potential risk. In a more severe instance, a 'Red' visual and audible alert indicate a collision is imminent and driver action is required, failure to act triggers V-AEBS, for added piece of mind.

Lane Keeping Technologies

From a safety perspective, the new PEUGEOT 3008 SUV is always one step ahead. Featuring two lane keeping technologies, the vehicle is able to identify lines on the road via a windscreen mounted camera.

The technologies are as follows:

Lane Departure Warning: (standard on Access and Active models) a system that monitors continuous and discontinuous lines and warns the driver if a longitudinal lane marking on the ground is accidentally crossed. If steering deviation is detected, you are alerted by a flashing indicator on the digital instrument panel and an audible signal in the cabin.

Active Lane Keeping Assistance: (standard from Allure onwards) in addition to visually and audibly alerting the driver, new PEUGEOT 3008 SUV also features LKA. As soon as the system identifies a risk of accidentally crossing one of the marking lines detected on the ground, the steering is gradually corrected to keep the vehicle in lane, at speeds of over 60kph.

Driver Attention Alert

Linked to the Safety Plus Pack, to help you stay sharp and alert behind the wheel, new PEUGEOT 3008 SUV features a two stage driver alert system for added safety on the road, comprising:

Driver Attention Alert 1 (DAA1): (standard on Access and Active models) it is important to take frequent breaks when travelling over long distances, to better guarantee your safety and the safety of those around you.

All new PEUGEOT 3008 SUV feature a timed alert system that operates at speeds in excess of 60kph, when after two hours of driving a message is displayed recommending that you take a break.

Driver Attention Alert 3 (DAA3): (standard from Allure onwards) controlled by a camera at the top of the windscreen designed to analyse the vehicles trajectory, this active system evaluates the vigilance of the driver at speeds of over 60kph.

By identifying deviations relative to the road markings new PEUGEOT 3008 SUV is able to determine whether the vehicle's behaviour reflects a certain degree of driver drowsiness or inattention.

If it is felt that the driver needs to take better care on the road a visual and audible alert will occur. If more than three instances occur, the driver will be advised to take a break.

Active Blind Spot Detection (ABSD): Standard from Allure trim and above.

Linked to the Safety Plus Pack, now you can enjoy the feeling of having eyes in the back of your head. Using lateral ultrasound sensors to cover areas out of your field of vision along with the windscreen mounted camera, an LED illuminates in either side door mirror to alert to the presence of a car, lorry, motorbike or bicycle in your blind spot. The system works when overtaking a slower vehicle or when overtaken by a faster vehicle. This intelligent feature operates from speeds as low as 12kph right up to the National Speed Limit.

In addition ABSD also features a trajectory correction system in partnership with Active Lane Keeping Assistance. The trajectory correction is applied to the steering if a line is crossed even when the turn indicator is enabled, to try and avoid a collision with an obstacle not detected by the driver.

Adaptive Cruise Control with Stop Function: Optional, dependent on trim.

Cruise control, as you know it, will never be the same again with new PEUGEOT 3008 SUV and EAT8 automatic gearbox technology*. Controlled via a radar mounted at the front of the vehicle with a range of up to 150 metres, the ACC Stop system provides two key functions:

- Automatic maintenance of the vehicle's speed, at the value set by the driver.
- Automatic maintenance of a set distance between the new PEUGEOT 3008 SUV and the vehicle in front, slowing the vehicle to a stop if required.

The system detects a vehicle driving in front in the same direction and can automatically adapt the vehicle's speed to that of the vehicle in front. This occurs using engine braking and the braking system (in which case the brake lights are lit) to maintain a constant distance.

If the vehicle in front has slowed to a stop, new PEUGEOT 3008 SUV will also be brought to a stop by the ACC Stop system, if after this no response is received from the driver, the electric parking brake is automatically applied.

This intelligent function is available at speeds of 28kph upwards.

Speed Limit Recognition: Standard on all versions.

Using the windscreen mounted camera, new PEUGEOT 3008 SUV features speed limit sign recognition, leaving you in no doubt over the speed limit.

Upon detecting a speed limit sign this information is read by the camera and displayed in colour on the 12.3" head-up digital instrument panel.

In addition to being made aware of the speed, the driver also has the option to adapt their speed to the speed limit on the particular road, via the vehicle's cruise control stalk. The vehicle will then adjust its speed accordingly.

This intelligent feature can be found as standard across the new PEUGEOT 3008 SUV range.

PEUGEOT Smartbeam Assistance: Standard from Allure onwards.

Linked to the Safety Plus Pack, PEUGEOT Smartbeam Assistance gives you one less thing to think about when driving at night.

Controlled via a windscreen mounted camera, the system continuously analyses driving conditions, for instance the proximity of other vehicles.

PEUGEOT Smartbeam Assistance automatically switches headlamps to full beam when conditions allow, allowing you to tap into the full potential of the full LED headlamps - standard on new Peugeot 3008 SUV GT Line and GT models - that offer uniform lighting to reduce eye fatigue, increasing driver comfort.

PEUGEOT 3008 SUV: INNOVATIVE TECHNOLOGY

3D Connected Navigation: Standard on GT trim.

The new Peugeot 3D Connected Navigation is linked to the 8.0" capacitive colour touch screen.

The system includes European mapping, 3D city mapping and voice recognition (for radio, navigation and telephone functions).

Mirror Screen: Standard from Active trim and above.

Allows the mirroring of a compatible smartphone screen to access the key functionality on the handset. Once paired functions are displayed on the 8.0" capacitive colour touch screen. Mirror Screen uses the following systems:

Apple CarPlay

Apple CarPlay® : Just plug in your iPhone* to make calls, send and receive messages, listen to music and get directions. Functions can either be controlled via the touch screen or Siri voice control.

MirrorLink® : Offering similar functionality to CarPlay®, Mirror Link® allows the seamless pairing of a compatible* Android phone to access to navigation, music and phone apps.

*Please consult peugeot.ie for a list of enabled Android phones - compatibility is based on the phone providers' original operating system. CarPlay® is compatible with iPhone 5/5c/5s, iPhone SE and iPhone 6/6 Plus/6s/6s Plus.

180° Colour Reversing Camera: Standard from Active trim.

A camera located on the rear of the vehicle is linked to the 8.0" capacitive colour touch screen. Offering increased visibility when reversing, with a selection of views to choose from, you'll never look back:

- **Rear Grid View:** a clear view of obstructions to the rear of the vehicle coupled with grid lines oriented to the positioning of the steering wheel, offering perspective for distances of one and two metres respectively from the rear bumper.
- **180° View:** Divides the screen into three zones, offering a clear view of vehicles approaching from the side. Perfect for safely reversing out of parking spaces.
- **Overhead View:** the camera records the surroundings during a manoeuvre to reconstitute an overhead rear view of the vehicle in its immediate environment, making it easier to manoeuvre between surrounding obstacles.
- **360° View Camera + Park Assist:** standard on GT Line and GT models.

Smartphone Charging Plate: Standard from GT Line.

Through the use of inductive charging technology a compatible device can be charged wirelessly whilst on the move. Operation is simple: just place your compatible smartphone on the charging area, once detected, battery charging begins.

The device must be Qi-compatible, the very latest smartphones from BlackBerry, Google, HTC, LG, Microsoft, Motorola, Samsung and Sony feature this technology built in with no additional add-on required.

Other devices including iPhone 5/5c/5s, iPhone SE and iPhone 6/6 Plus/6s/6s Plus will require an additional Qi2001 accessory to access the wireless charging functionality.

For more information on this growing technology please visit the Qi website .

FOCAL® Premium HIFI Speaker System Optional from Allure trim and above.

Specialising in acoustics for 35 years and known throughout the world for their patented innovations and unique sound signature, PEUGEOT are proud to offer FOCAL® technology for the ultimate in car acoustic experience.

The system comes equipped with ten loudspeakers comprising the following:

- High-fidelity woofers/mediums featuring Polyglass technology ensuring a balanced, precise sound.
- TNF tweeters featuring aluminium inverted dome technology, offering optimum sound dispersion and crisp trebles.
- Subwoofer featuring Power Flower™ 200 mm triple-coil technology for defined, dynamic performance in the bass frequency.
- Active 12 channel/515 watt amplification for optimum sound quality.

Enjoy the perfect soundtrack on every journey with new PEUGEOT 3008 SUV and FOCAL®.

Smart Electric Tailgate: Optional from Allure trim and above.

To make loading and unloading that little bit easier, new PEUGEOT 3008 SUV with Smart electric tailgate technology can help take a load off your mind.

Featuring a sensor located under the rear of the vehicle, a simple foot movement underneath the bumper is all that is required (vehicle key must be within range) to open and close the tailgate.

In addition the tailgate can be electrically operated using the rear handle, tailgate interior fascia panel, dashboard and keyless entry enabled key fob.

PEUGEOT Open and Go: (Standard on GT Line versions and above, Standard on all Hybrid Versions)

Using sensors mounted in the front door handles, new PEUGEOT 3008 SUV can be opened without removing the key from your pocket or bag, simply grab the handle and the vehicle will automatically unlock. Once inside, a simple press of the stop start button is all that is required.

Panoramic Opening Glass Roof: Standard from GT Line trim and above.

Enjoy the world outside with new PEUGEOT 3008 SUV.

Divided into two glass panels that bathe the cabin in natural light, the panoramic opening glass roof enhances the appearance of this stylish SUV. For an added breath of fresh air, the glass panel includes a tilt function and can be opened up to 400mm.

An electric roller blind is also included, in either Salin light grey or Mistral black, dependent on level. To enhance the style even further, blue ambient lighting flanks the glass panel.

PEUGEOT 3008 SUV: INTELLIGENT SOLUTIONS

Advanced Grip Control®: Optional on all versions and standard on GT models.

To allow you to take on a variety of weather and terrains, new PEUGEOT 3008 SUV can be specified with Advanced Grip Control® (Unavailable on HYBRID versions), a system designed to optimise traction in low-grip conditions. It adapts to the terrain by acting on the front wheels, in doing so this saves the weight normally associated with a more conventional four wheel drive system.

Advanced Grip Control® offers the driver a choice of five driving modes, accessed via a rotary dial on the centre console. Designed to work in conjunction with all engines and transmissions, Advanced Grip Control® is optional across the new PEUGEOT 3008 SUV range. In addition the system also incorporates a new Hill Assist Descent Control (HADC) for the first time, this optimises vehicle control on steep slopes.

ESP Off:

Enables the disconnecting of the dynamic stability control (ESP) and traction aids (ASR/Grip Control), up to 50 km/h to give the driver complete autonomy. These systems are automatically reconnected above this speed for safety.

Normal Mode:

Calibrated system with a low, fixed level of wheel spin based on a compromise between the different types of grip generally encountered in normal day to day driving.

Snow Mode:

The system adapts to the grip conditions encountered by each wheel when starting. When advancing, the system optimises wheel spin to guarantee the best acceleration based on the available traction. Recommended in cases of deep snow and steep inclines.

Mud Mode:

This mode authorises a lot of wheel spin at start-up for the wheel with the least grip, this removes mud and re-establishes traction. Meanwhile, the wheel with the most grip is provided with the most torque possible.

Sand Mode:

This mode allows a small amount of simultaneous wheel spin on the two drive wheels, enabling the vehicle to advance and reduce the risk of sinking.

The Advanced Grip Control® Rotary Dial & 5 Driving Modes

Hill Assist Descent Control (HADC): (Optional on all versions, included with Advanced Grip Control®)

Designed to assist with the descent of steep slopes, Hill Assist Descent Control is incorporated as part of the Advanced Grip Control® system. When descending a slope with a gradient of more than 5% and with vehicle speed below 30kph the system will work to reduce the risk of slipping. During a descent the system maintains speed and brake control, allowing the driver to concentrate on the vehicles path of travel during the manoeuvre.

A clever feature incorporated within the Hill Assist Descent Control system is our unique 'Clutch Mode' security function. Selecting this function for very steep slopes regulates the vehicle speed to 3kph, this allows the vehicle to creep down a steep slope in a completely controlled manner.

Hill Assist Descent Control (HADC)

"Clutch Mode" In Operation

HADC Control Button

Wheels and Tyres:

Advanced Grip Control® also incorporates a bespoke wheel and tyre option to work in conjunction with the systems technology.

Models feature 18" 'Los Angeles' two tone diamond cut alloy wheels coupled with specific Mud and Snow (M+S) tyres to help optimise traction on varied surfaces.

Model shown is new PEUGEOT 3008 SUV with optional Advanced Grip Control® incorporating 18" 'Los Angeles' alloy wheels.

E-Kick (Folding Electric Scooter): Available as an Accessory on all versions.

With over 2 million* cars on Irish roads, space can sometimes be at a premium. Here at PEUGEOT we have gone that step further to provide a complete mobility solution to get you to your end destination. Developed in conjunction with Micro (the world leader in compact Scooters), PEUGEOT presents e-Kick, a folding electric scooter. With its unique design, e-Kick features a foldaway mechanism to make transportation easy.

Featuring 500 W of electric power, e-Kick is able to travel up to speeds of 25kph and can provide transportation for up to 12km. Recharging the e-Kick couldn't be easier, through the use of the bespoke dockstation, e-Kick can be charged in 60 minutes whilst out on the road in new PEUGEOT 3008 SUV. The e-Kick scooter can also be recharged using a standard household plug socket.

To prolong battery life further e-Kick features regenerative engine braking. This allows the energy produced during engine braking to be transferred into battery power.

e-Kick Charging Dockstation

Compact and lightweight

e-Kick

Full LED Headlamps: Standard from GT Line onwards

Full LED Headlamps: Light Emitting Diode (LED) technology remains a rare feature in the car industry, with new PEUGEOT 3008 SUV however this is not the case. Full LED headlamps feature from GT Line, allowing you to enjoy the following benefits:

- LED technology consumes considerably less energy to produce light, 50% less than halogen and 35% less than xenon technologies.
- LED technology offers a whiter light for improved visibility at night, the light is also more similar to daylight, leading to reduced driver eye fatigue, improving safety.
- LED technology requires no warm up time with instantaneous lighting response when compared to conventional halogen technologies.
- LED technology will last for the life of the car, compared to halogen technology with much shorter life expectancy.
- LED technology offers a very striking visual signature that perfectly complements the sharp exterior design of new PEUGEOT 3008 SUV.

For an additional dose of style, in conjunction with full LED headlamps, new PEUGEOT 3008 SUV features LED sequential scrolling front indicators, that glide outwards, along the top edge of the lamp cluster, when signalling.

To complement LED technology used in the headlamps, all new PEUGEOT 3008 SUV models feature this technology in the door mirror mounted indicators and signature design rear LED PEUGEOT signature 'Claw Effect' lights (with daylight function). In addition GT Line and GT models feature LED foglamps and LED 'PEUGEOT Lion' approach lights that project onto the ground either the side of the vehicle.

Full LED Headlamps and Foglamps

PEUGEOT Signature "Claw Effect" lights (inspired by the iconic PEUGEOT 504 Coupe and Cabriolet)

PEUGEOT 3008 SUV: INTELLIGENT SOLUTIONS

"Magic Flat" Seating

Split Folding Rear Seats with 'Magic Flat' functionality (Unavailable on HYBRID versions): At the single pull of the quick release lever (located in the boot) or via the controls on the rear seat backs, the rear seats fold to give a flat load area for easy loading. (Boot floor must be in the raised position). With the rear seats folded the total storage volume grows to 1670 litres. A ski flap also features to aid the loading of lengthy items. (Standard on all versions)

Flat Folding Front Passenger Seat: From Allure models and above. For increased modularity, at the single pull of a handle (located at the seat base) the front passenger seat folds completely flat. In doing so this increases the loading length to three metres, perfect for transporting lengthy items like a Christmas tree. When folded flat the front passenger seat back also serves as a useful picnic table. (Standard on Allure, GT Line and GT models).

"Magic Flat" Seating

Quick Release Lever

"Magic Wash" System: Standard on all versions.

Mounted in the front windscreen wipers, all new PEUGEOT 3008 SUV models benefit from our innovative windscreen wash system, designed to more effectively distribute water and reduce wastage.

Using nozzles located above the wiper blades, fluid is distributed as the wiper sweeps the windscreen. This avoids the 'temporary blindness' of more conventional bonnet mounted systems between fluid release and wiper sweeping, improving visibility.

Front Wipers With Integrated Washers

Intelligent Storage Solutions: Standard on all versions.

New PEUGEOT 3008 SUV has been carefully designed to offer useful storage solutions to accommodate all of the items needed for daily life, plus a bit more for good measure. With nearly 30 litres of storage on offer, areas include:

Front Centre Storage Compartment: Offering 11 litres of space under the 'butterfly' opening armrest, this cooled compartment is deep enough to accommodate a 1.5 litre bottle.

Front Door Pockets: Offering 3.5 litres of storage each, these can also accommodate 1.5 litre bottles. To minimise noise from stored items, GT Line and GT models feature flock lined front door pockets.

In addition all versions feature map pockets on front seat backs, rear door pockets both offering 2.2 litres of storage, 4 x cup-holders, dedicated handbook storage under the front passenger seat as well as storage in the front centre console (version dependent).

Front Centre Storage Compartment

Seating

Front Seating: The front seats on new PEUGEOT 3008 SUV have been developed to provide heightened sensations of comfort and support, enlivened with a touch of sportiness. This brief has resulted in seating that will make every journey, no matter the distance, an absolute pleasure.

Front seats benefit from the following features (according to trim level):

- Electric eight-way adjustment: (height, longitudinal, seat back angle and seat cushion angle). Standard on GT models, optional on Allure and GT Line.
- Heating function: with 3 pre set temperatures, (includes heating elements in the seat base and back rest), Standard on GT models, optional on Allure and GT Line.
- Multi-point massage function: for driver, with eight-pocket pneumatic technology to provide a luxurious massage, with five different massage types. Standard on GT models, optional on Allure and GT Line.
- Driver seat memory: memorises driver seat and door mirrors positions for up to two people. Standard on GT, optional optional on Allure and GT Line.
- Nappa Mistral full grain leather trim with Akinite double stitch detail: high grade, soft leather trim with intricate copper stitching. Standard on GT, optional on GT Line.

AGR Approval (Aktion für Gesunder Rücken):

In addition to the specification above new PEUGEOT 3008 SUV features or can be specified with seats that comply with the AGR association's 'Actions for a Healthy Back' initiative. As standard on GT models and optional on Allure and GT Line models, new PEUGEOT 3008 SUV features the following:

- Adjustable seat nose (mechanical)
- Adjustable seat angle (electric)
- Four-way adjustable lumbar support (electric pneumatic) (driver only)

Eight pocket Multi-point Massage function

Two Position Boot Floor

Two Position Boot Floor (unavailable on HYBRID versions) :

Lower Position: In its lowest position this provides access to the largest area of continuous bootspace, up to 591 litres to the parcel shelf, (includes spare wheel well).

Upper Position: The upper position brings the bootfloor flush with the boot entry sill and seatbacks, when lowered. This position aids with loading larger items with a large flat surface available. Smaller items can also be stored out of harms way under the bootfloor. For increased modularity the removable rear parcel shelf can be stored under the boot floor.

PEUGEOT 3008 SUV: TECHNICAL SPECIFICATIONS

EXTERNAL DIMENSIONS	
Length (mm)	4.447
Width (mm)	1.841
Height without / with roof bars (mm)	1,620 / 1,624
Wheelbase (mm)	2.675
Front / rear overhang (mm)	923 / 849
Front / rear track width (mm)	1,593 / 1,601
Approach / departure angles (degree)	20 / 29
Ground clearance (mm)	219
Turning circle between pavements (m)	10.67
EXTERNAL DIMENSIONS FOR PARKING	
Length with boot open (mm)	4.717
Width with front / rear doors open (mm)	3,617 / 3,402
Width with door mirrors open / folded (mm)	2,098 / 1,906
Height with bonnet open (mm)	1.945
Height with boot open (mm)	2.06
INTERNAL DIMENSIONS	
Number of seats	5
Front / rear elbow room (mm)	1,493 / 1,484
Front / rear shoulder room (mm)	1,451 / 1,422
Front / rear head room (mm) (1)	915 / 912 (847 / 843)
Distance between front seat back and front pedals (mm)	816
Distance between rear seat back and front seat back (mm)	889
BOOT, STORAGE & FUEL TANK	
Length with rear seat back up / folded (mm)	919 / 1 861
Maximum loading length (mm)	3.005
Width between wheel housings (mm)	1.053
Height under parcel shelf / head room (mm) (2) (1)	609 / 974 (871)
Opening of boot, height / width (mm)	821 / 998
Min. boot volume (dm ³ VDA 210) (3)	520 / 591 litres
Max. boot volume (dm ³ VDA 214) (3)	1.482 / 1,670 litres
Total volume of storage areas in the passenger compartment (litres)	32
Fuel tank capacity (litres)	53

(1) Value in brackets: with optional panoramic opening glass roof

(2) Adjustable boot floor in low position

(3) Measured according to VDA method using parallelepipeds of 200x100x50 mm

The boot volume is reduced if the spare wheel option is taken

ES&OE APRIL 2020. FOR FURTHER INFORMATION TALK TO YOUR LOCAL PEUGEOT DEALER OR SEE WWW.PEUGEOT.IE.

The information contained in this specification sheet, is based on the data and images available at the time of publication. Some photography may feature left hand drive models. All images shown are for illustration purposes only. Photographic processes used may alter the depth and tone of the colours shown. As part of a policy on continuous specification improvement, Peugeot reserves the right to modify colours, trims, engine range, options and standard equipment at any time. This specification sheet is not a contractual document or offer of sale.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO2 emissions and are correct at the time of print. WLTP replaces the previous NEDC test method. The included values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO2 emissions produced. You can discover more about the WLTP at peugeot.ie/brand-and-technology/wltp
