All-New Renault KOLEOS

Although every effort has been made to ensure that the information contained within this brochure is as accurate and up to date as possible, Renault U.K. reserves the right to modify its models without notice, including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, specifications equipment, or accessories may be changed after the publication date given below and can differ from the descriptions given or the photos displayed. It is therefore necessary to check with your Renault Dealer before purchasing any product that the characteristics, specifications, equipment or accessories of the vehicle on order are as advertised.

Out of the ordinary, All-New Renault Koleos.

Bigger. Bolder. Better.

All-New Renault Koleos is an evolution in automotive design and technology. With space that defies expectations and levels of comfort and finish that have to be experienced to be believed, All-New Renault Koleos sets the new standard in SUVs.

The art of drawing attention

All-New Renault KOLEOS embodies new aspirations. Charismatic, with a sense of detail and personality enhanced by its sleek appearance and athletic curves. The chrome inserts that start at the headlamps underline the vehicle's dynamism and strength of character in an elegant and singular fashion. The striking forms of the full LED lighting signature* attract attention and make an impression. Right down to the robust look of the 19 inch alloy wheels*, All-New Renault KOLEOS reflects your desire to get ahead.

* Standard on Signature Nav

The journey starts with the interior

As soon as you settle on board, you already feel as if you are somewhere else. Nothing here is left to chance. Everything is a step above: the materials, the satin finish on the chrome inserts, and the finely stitched leather†. The sunroof offers a unique viewpoint while the driver's seat surrounds you in reassuring comfort. Drive an SUV that offers you all of the advantages of an upmarket saloon. The raised seating position lets you master the road, and the architecture of the driving position bordered by the central console reinforces the feeling of protection. Grab handles serve as a reminder you're in a real crossover. Feel good instantly.

† Part leather, synthetic leather on the sides

Take a seat

Renault's meticulous design philosophy and attention to detail applies to every aspect of All-New Renault Koleos, including the cabin.

The interior design and standard of finishes are exceptional. For the driver, the 7" instrument display is amongst the largest in its category.

The screen itself is a dynamic TFT (Thin-Film Transistor). With more depth and colour than a regular screen, driver information is delivered with brilliant clarity – even for moving imagery.

Satin chrome finishes across the dash and throughout the cabin look, and feel, fantastic. The electric panoramic sunroof, with an electric sun blind, extends over the rear seats. To reduce wind noise it opens underneath the cabin roof.

Choose between 5 different colour display options for both the multimedia, instrument display, and the cabin ambient lighting.

With leather upholstered*, heated* or cooled† front ergonomic seats, (available in three different styles of leather^*) total cabin climate control, and a state of the art BOSE® sound system†, you could be sitting in your lounge room.

* Standard on Signature Nav
† Optional on Signature Nav
^Part leather, synthetic leather on the sides

Out of the ordinary technology

Central to the All-New Renault Koleos technology is an 8.7" portrait touchscreen* - one of the largest in its category. It's a 'capacitive' touchscreen, which means it's easy to use. Simply drag, pinch, or swipe to navigate the same way you would a tablet or smart phone. After all, good technology makes life simpler, not more complicated.

All-New Renault Koleos allows you to design your personal home screen by choosing the size and position of the maps, radio, favourite contacts, navigation and more. Voice commands means ease of use and safety while driving.

Take advantage of the Android Auto™ and Apple CarPlay™. You can now access your smartphone's apps^ from the R-Link 2 touchscreen multimedia system.

And when you have created the interior ambience to match your mood with all the different lighting options, engage the rich, acoustic experience delivered via the BOSE® premium sound audio system†.

13 high-performance speakers† deliver an experience similar to being in the middle of a concert hall performance. High notes are crystal clear and the deep bass delivered without distortion. It's a complete, immersive experience controlled via the touchscreen tablet.

* Standard on Signature Nav

† Optional on Signature Nav

^ **Compatibility:** An Android phone running Android 5.0 (Lollipop), an iPhone no earlier than iPhone 5 & iOS 7.1. **Disclaimer:** Connecting a smartphone to access Android Auto™ and Apple CarPlay™ should only be done when the vehicle is safely parked. Drivers should only use the system when it is safe to do so and in compliance with the law. Drivers should be aware of the potential of hands-free technology to distract a driver's attention from the road, preventing them from having full control of the vehicle.

Every aspect of comfort

All-New Renault Koleos is ambitious just like you, and takes every aspect of you and your passengers' comfort into account, offering them more generous legroom. A compartment for keeping your drinks hot or cold can be found at the front and the rear. Wellbeing is everywhere for everyone on board All-New Renault Koleos. The inviting and enveloping seating position is at the top of the range in this category. Welcome to comfort that goes the extra mile.

Out of the ordinary space

If there is one feature that sums up All-New Renault Koleos' 'total comfort', it's the room for occupants sitting in the back.

Rear passengers in the All-New Renault Koleos enjoy dual air vents, dual USB charging ports* and rear seat nets to keep things neat and tidy. Pull down the overstitched, leather trimmed^^ centre arm rest if you need somewhere to put your drinks. Enjoy the ambience of LED interior cabin lighting, this could be the first Crossover where you'd prefer to sit in the back seat

All-New Renault Koleos, Explore its performance

Drive the All-New Renault Koleos and experience the effect of its all-terrain ALL MODE 4x4-i technology; its engine, connected to its new X-Tronic gearbox; and its numerous driver assistance technologies—not to mention the unique quality of its BOSE® sound system*. It's the kind of performance that will always take you further, be it on an urban adventure or off the beaten track.

* Optional on Signature Nav

Out of the ordinary performance

Renault capitalises on know-how forged in competition to improve further the engines of All-New Renault Koleos.

ENERGY dCi 130 **Enjoyment and efficiency**

The Diesel ENERGY dCi 130 engine offers the best combination of comfort and economy of use. Its tempting, continuous acceleration delivers amazing driving enjoyment for optimal fuel consumption.

ENERGY dCi 175 & ENERGY dCi 175 Auto X-Tronic **The power of pleasure**

The Diesel ENERGY dCi 175 engine, which generates a healthy 380 N.m torque from 2000 revolutions/minute, delivers even more powerful acceleration for unequalled performance and driving pleasure.

Auto X-Tronic

The new X-Tronic automatic continuously variable transmission offers fluid, responsive driving without any interruption of torque. X-Tronic adjusts continuously whilst maintaining optimal engine speed and can also simulate gear shifts, producing even more powerful acceleration.

ALL MODE 4x4-i:

The four-wheel-drive versions of the All-New Renault Koleos come equipped with the new ALL MODE 4x4-i technology. Select your driving mode – AUTO, LOCK or 2WD – and keep complete control of the engine function on any terrain.

Rise to every challenge

Behind its chic urban styling, All-New Renault Koleos has the DNA of a true 4X4. Experience every day as a new adventure and go off the beaten track with ALL MODE 4x4-i technology†. Simply flip the switch located next to the steering wheel to change from 2WD to LOCK mode and benefit from permanent full transmission to help deal with obstacles. Push the boundaries! With All-New Renault Koleos, the city is as easy to cross as it is to impress.

† Only available with dCi 175 engine

Freedom of movement

To open the boot, either use your remote key card or place your foot underneath the rear bumper. Sensors will open the powered automatic tailgate*, revealing 458 litres of luggage space in seconds.

The 'one-touch' easy folding rear seats fold down to create a colossal luggage area. Even better, it's storage that's easily accessible with a low loading sill that makes it easier to pack cumbersome items inside. A rear boot cover hides your load and rear Privacy Glass protects it from prying eyes.

* Standard on Signature Nav

Out of the ordinary versatility

The leather[†] wrapped grab handles for both driver and front passenger aren't there for show. With its high clearance and off road ability, All-New Renault Koleos is a genuine 4WD*. All-New Renault Koleos offers a range of driving options so you can confidently traverse a variety of surfaces and driving conditions. Introducing Renault ALL MODE 4x4-i Technology. With the push of a button, you can switch between three different driving modes to suit the conditions you're driving in.

2WD

2WD mode
In this mode, only the front wheels will power the vehicle. It's designed for driving on sealed roads, manoeuvring through city traffic or cruising down a highway. This mode delivers maximum fuel efficiency in safe driving conditions.

Auto mode
Use this mode when conditions are wet, slippery or the road surface is unsealed. Sensors will distribute torque between the front and rear wheels to match road conditions, reducing the chance of wheel spin. In tight cornering or braking situations, this mode will deliver optimum torque to the rear wheels.

4WD / LOCK

4WD/Lock mode
Lock All-New Renault Koleos in 4WD when driving on unsealed roads, slippery roads, snowy roads, off roads or steep hills.

Front and rear wheel torque distribution is fixed, ensuring permanent transmission between the four wheels to maximise the vehicles clearance capability and stability. When LOCK mode is selected, All-New Renault Koleos will switch automatically to AUTO mode when your speed increases.

[†] Synthetic leather
* Only available with dCi 175 engine

BOSE® Sound System Explore new sounds

Delivering deep bass and treble frequencies for a realistic sound experience, the BOSE® sound system* turns the cabin of your crossover into a concert hall. Thirteen high-performance speakers and a subwoofer emit a panoramic sound, assisted by a specially configured digital amplifier. With clear tones, tight rhythms and subtle chords, the sound is rich, balanced and precise in the front and the rear. The All-New Renault Koleos is both a motoring and a musical adventure...

* Optional on Signature Nav

Driver assistance

Renault engineers have long studied and re-imagined different driving situations to develop new technologies and systems to assist the driver. And not just in case of an emergency. They can help prevent emergencies from happening in the first place.

Hand Free Parking*

The parking assistance system measures the parking space with its sensors (whether parallel, perpendicular, or angled) and defines the parking trajectory. Then it takes over the wheel and steers itself while the driver controls the speed and braking. It can also help to exit parallel parking spots.

Front and rear parking sensors with rear parking camera†

All-New Renault KOLEOS has you covered from all directions with sensors that give you an audible warning when moving or static objects are too close, as well as visual guidelines displayed on the touchscreen let you know exactly how close you are to an obstacle.

Automatic high and low beams

The Pure Vision LED headlamps^ on the Intens model will automatically switch from high to dipped beams when your All-New Renault KOLEOS enters a built-up area or approaches another vehicle from the front or behind. Cornering lights automatically switch on when turning corners.

Blind spot warning system†

The All-New Renault KOLEOS detects vehicles entering your blind spot. An indicator light located on each wing mirror will warn you of any potential hazards.

Out of the ordinary safety

Driving safety is a cornerstone of Renault's corporate culture and builds on 50 years of research and development into accident protection and prevention.

Advanced Emergency Braking

If you have to brake in an emergency, this system complements the ABS and ESC to reduce stopping distances and collision risks. If a vehicle suddenly stops in front of you, a forward collision warning light and tone alerts you. Simultaneously, the vehicle is actively preparing for emergency braking by bringing the brake pads and discs closer together for maximum braking power in the minimum response time. If you don't react and step on the brakes, the car will activate braking for you.

Emergency braking lights

In the case of heavy braking, the All-New Renault KOLEOS activates its hazard lights to warn other vehicles around you.

Adaptive airbags

All-New Renault KOLEOS protects occupants with multi-stage, variable force deployment airbags. This variable deployment is determined by the severity of the accident and proximity of the driver and front passenger to the dash or steering wheel. All-New Renault KOLEOS also features lateral pelvis and chest level airbags for front occupants, and curtain airbags for the entire cabin.

Automatic locking

When driving^, or leaving the car, All-New Renault KOLEOS will automatically engage the door locks, never leaving you exposed.
