

ALLOY WHEELS

ŠKODA
SIMPLY CLEVER

CHANGE THE CHARACTER

Not only do alloy wheels influence the overall perception of the exterior, but they can also change the character of the car. Their design can bring more dynamism, underscore elegance, make the vehicle more sporty or give an impressive-looking family vehicle an added level of comfort. Because it's not just about style. It's also about ensuring your safety. Alloy wheels from ŠKODA Accessories combine unique design with optimum functionality and safety.

Before any set of wheels go onto a ŠKODA model, they must meet the strictest of quality requirements. They must go through an extensive battery of tests - the same as for series production products. Inside you'll find a wide range of high-quality options with a guaranteed long life and a great opportunity to personalise your ride.

ALLOY WHEELS RANGE

The same way shoes tell
important things about you,
rims tell about your car.

Whether your goal is
to accentuate ŠKODA's
elegant or sports attributes,
genuine wheels are
a perfect match.

The correct combination of rim and tyre sizes can be found in the Registration certificate or contact your dealer. When choosing snow-chains, it is necessary to follow the indication in your car's certificate of roadworthiness. The information on technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. The manufacturer reserves the right to changes. The compatibility of complete winter wheels with the car must always be verified in the certificate of roadworthiness. Wheels depicted on the cars may not be part of a range of winter complete wheels.
