SIMPLY CLEVER

DISCOVER NEW GROUNDS

The ŠKODA KODIAQ is a car that will enable you and your loved ones to rediscover the things that are really important and that matter.

The ŠKODA Genuine Accessories product range is based on users' real needs and helps them to customise their car so that it perfectly reflects their needs and wishes.

Whether you opt for design modifications, prefer to make transporting your luggage easier, or place an emphasis on the safety and comfort of your children, ŠKODA Genuine Accessories will always deliver the optimal solution. All products are distinguished by their high quality, borne out by rigorous testing, and full compatibility with the ŠKODA KODIAQ.

SPORT & DESIGN

Robust and self-assured, the KODIAQ's appearance is a clear sign of how poised the car is to embark on off-road adventure. To enhance your driving experience, we have prepared a range of accessories expanding the car's practicality, and in doing so we have also focused on components to embellish its seductiveness.

WHEELS

WHEELS

BUSINESS CLASS WITH TOUCH OF PERFECTION.
The same way shoes tell important things about you, rims tell about your car. Whether your goal is to accentuate ŠKODA KODIAQ's elegant or sports attributes, genuine wheels are a perfect match.

The product consists of a lightweight alloy wheel (including a wheel-centre cap with the ŠKODA logo). A set of four wheel trims is available as an optional extra for the steel-wheel alternative.

 May be used with snow chains

INFOTAINMENT

INFOTAINMENT

The ŠKODA KODIAQ's skills stretch far beyond its driveability and competence in transporting passengers and their luggage. Connecting the car to your multimedia devices opens up a completely new world of entertainment, information and communication. With ŠKODA Genuine Accessories you will experience a fully connected life.

CARSTICK

ŠKODA Genuine Accessories

The CarStick can be used to generate an internet connection for mobile online services (ŠKODA Connect). This means that you can use the services without using an internet connection from your smartphone. You can even set up a Wi-Fi hotspot in your vehicle in just a few seconds. Simply insert a suitable SIM card into the CarStick, connect it to the USB slot in front of the gear lever and set up on the Amundsen navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. (000 051 409F)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

COMPATIBILITY LIST

This application will display your external device (smart-phone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system. From time to time software updates may be available for your KODIAQ. Contact your local ŠKODA dealer for information.

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

ŠKODA Connect App in place, your car remains under your control at all times. Access all necessary features and functions of your vehicle anywhere and anytime from your smartphone.

OneApp is a useful mobile application offering easy access to a wide range of services and assistance tools. You can easily check the vehicle status or a trip log or plan a trip by referencing nearby places of interest simply and conveniently on your smartphone in the comfort of your home.

MyŠKODA App is a mobile application available for iOS (Apple) and Android (Google) devices. An app which would provide you detailed information about your car and its service wherever you are. A way to get immediate help from roadside assistance or your favourite dealer.

SmartLink+

ŠKODA Genuine Accessories

(000 054 830A)

it is available only for Swing

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via cable to access interesting data about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)

Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called 'heel test'? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strength needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

Simulation map of stress induced by roof rack tightening

Testing of fixing element strength

A young girl with long brown hair in a braid, wearing a green jacket over a red sweater, is smiling and looking down at a stack of smooth, light-colored stones. A young boy with short brown hair, wearing a dark blue jacket over a maroon hoodie, is leaning over the stones, looking intently at them. The background shows a sandy beach, some greenery, and a mountain range under a clear sky. The text "SIMPLY CLEVER" is overlaid in large, white, bold, sans-serif capital letters on the left side of the image.

**SIMPLY
CLEVER**

SIMPLY CLEVER

The smart solutions and practical little items are proof that the words “Simply Clever” are no empty marketing slogan. These are features that increase comfort and boost the car’s practicality. The thought our basic principle remains the same for everyone: to deliver a premium ride and pleasurable use of the car.

Simulation map of stress induced by roof rack tightening

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation. During the so called City Crash test, a rack loaded with 90 kg must remain on the car body under a force of approximately 12 G lasting for 50 milliseconds (impact simulation).

SAFETY

SAFETY

We share a common goal with you:
We want to travel as safely as possible.
No matter whether we're talking child seats, safety belts for dogs, security accessories or features you might need in an unexpected situation.
All products from the ŠKODA Genuine Accessories range guarantee maximum reliability.

Do you want to ensure the maximum safety of your children in the car?
The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

Practical and variable
The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.
Perfectly verified

All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

Watch the child seat testing video.

LED, SBBR TOP (565 052 000J)

Warning triangle
ŠKODA Genuine Accessories
Space-saving, but still stable and well visible, with folding metal feet for emergency roadside standing (GGA 700 001A)
Triangle in plastic case
450 x 90 x 38 mm, improved stability in wind (GCA 093 001A)

EXPERIENCE

No one's saying you can only
use a child seat in a car.

**"Remember how we
would pan for gold, Dad?
With this shovel of yours
we'll be done in no time..."**

Take your hobbies
everywhere with you,
there's ample space for
everything.

Where better to test
a plastic boot dish than
in real life?

Take your pet anywhere
for your exciting journey.

"There's still a long way
ahead of us and a trailer
promising exciting
adventure behind us."

“Why don’t we use the tow rope more often, this is so much fun...”

“Look at it this way, there’s plenty of fun to be had in the back on those long journeys.”
