ENJOY THE SPACE BACK AND FORTH

The ŠKODA RAPID SPACEBACK is a car brimming with style, personality and dynamism, offering plenty of opportunity for individualisation when it comes to comfort, transportation and entertainment. All of its qualities can be refined with a raft of stylish and practical accessories.

With attractive and practical products from ŠKODA Genuine Accessories you can customize your RAPID SPACEBACK to even better meet your needs, fulfill your motoring dreams, and take full advantage of the vehicle's potential. Whether you opt for design modifications, prefer to make transporting your luggage easier, or place an emphasis on the safety and comfort of your children, ŠKODA Genuine Accessories will always deliver the optimal solution. All products are distinguished by their high quality, borne out by rigorous testing, and full compatibility with the ŠKODA RAPID SPACEBACK.

**SPORT
& DESIGN**

SPORT & DESIGN

The new ŠKODA RAPID SPACEBACK is a car that creates excitement. Whether you are behind the wheel, admiring the RAPID SPACEBACK's curvaceous body from curb side, or relishing its generous luggage space, you feel that you are driving an exceptional car. The simplicity and precision of the design forms the perfect basis for decorative accessories. Foils or various exterior elements will increase the style of the ŠKODA RAPID SPACEBACK and add to its uniqueness. Steering wheels in a variety of colour combinations and stainless steel pedals will accentuate the dynamic look of the car's interior.

The **RED & GREY PLUS PACK**, in addition to double-coloured design stripes foil set, includes the front and rear spoiler, 5th door spoiler and decorative side sill extensions. For this pack are recommended the exclusive 17" alloy wheels Savio in red and silver design. The pack can only be ordered for a new car. ŠKODA AUTO takes care of the professional assembly.

RED & GREY PLUS PACK

- ŠKODA Genuine Accessories
- › Design foils set (Front bumper, Bonnet, Roof, Tailgate under the window) (5JA 064 317E / 5JJ 064 317H)

WHEELS

WHEELS

BUSINESS CLASS WITH TOUCH OF PERFECTION.
The same way shoes tell important things about you, rims tell about your car. Whether your goal is to accentuate RAPID SPACEBACK's elegant or sports attributes, ŠKODA genuine wheels are a perfect match.

The product consists of a lightweight alloy wheel (including a wheel-centre cap with the ŠKODA logo). A set of four wheel trims is available as an optional extra for the steel-wheel alternative.

 May be used with snow chains

Did you know, that...
All the alloy wheels have passed rigorous homologation tests of ŠKODA AUTO to prove their resistance to corrosion, climatic influences and driving strain? Moreover, alloy wheels are protected by a layer of extremely hard, heat-resistant paint.

INFOTAINMENT

INFOTAINMENT

Driving the RAPID SPACEBACK will be even more pleasant with ŠKODA Genuine Accessories. No more getting lost in unknown places, boredom during long motorway journeys or stopping for a phone call. You'll be reliably guided through unfamiliar locations by the navigation system. The radio will provide a high quality listening experience of your favourite music. Thanks to hands-free you can get in touch with your family or comfortably deal with urgent work matters.

CARSTICK

ŠKODA Genuine Accessories

The CarStick can be used to generate an internet connection for mobile online services (ŠKODA Connect). This means that you can use the services without using an internet connection from your smartphone. You can even set up a Wi-Fi hotspot in your vehicle in just a few seconds. Simply insert a suitable SIM card into the CarStick, connect it to the USB slot in front of the gear lever and set up on the Amundsen navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. (000 051 409F)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

COMPATIBILITY LIST

This application will display your external device (smartphone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system. From time to time software updates may be available for your RAPID SPACEBACK. Contact your local ŠKODA dealer for information.

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

ONE APP AND CONNECT APP

OneApp is a useful mobile application offering easy access to a wide range of services and assistance tools. You can easily check the vehicle status or a trip log or plan a trip by referencing nearby places of interest simply and conveniently on your smartphone in the comfort of your home. With ŠKODA Connect App in place, your car remains under your control at all times. Access all necessary features and functions of your vehicle anywhere and anytime from your smartphone or smartwatch. Features are available based on ordered ŠKODA Connect bundle: Infotainment Online or Care Connect.

Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called 'heel test'? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strength needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

TRANSPORT

TRANSPORT

Surely you have many plans with your family where to go, what to see and how to enjoy leisure time. Whether you go on a sports trip, discovery holiday or just a weekend at the cottage, even the large luggage compartment may not be sufficient. ŠKODA Genuine Accessories offer a simple solution in the form of products enabling you to transport sports equipment and other luggage outside the car's interior.

› Electrics for cars without serial preparation (5JA 092 101B + 5JA 055 204B + 5JJ 055 204A)

Simulation map of stress induced by roof rack tightening

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation. During the so called City Crash test, a rack loaded with 90 kg must remain on the car body under a force of approximately 12 G lasting for 50 milliseconds (impact simulation).

4-point seat belt (000 019 906L)

Do you want to ensure the maximum safety of your children in the car?
The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

Practical and variable
The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.

Perfectly verified
All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

Watch the child seat testing video.
